The Connecticut Angler's Guide is published annually by the **State of Connecticut**

M. Jodi Rell, Governor

Department of Environmental Protection

Gina McCarthy, Commissioner

Bureau of Natural Resources

Edward C. Parker, Chief

Inland Fisheries Division

William A. Hyatt, Director

Marine Fisheries Division

Eric M. Smith, Director

Department of Environmental Protection 79 Elm Street Hartford, CT 06106-5127

The Department of Environmental Protection is an affirmative action/equal opportunity employer, providing programs and services in a fair and impartial manner. In conformance with the American with Disabilities Act, DEP makes every effort to provide equally effective services for persons with disabilities. Individuals with disabilities needing auxiliary aids or service, or for more information by voice or TTY/TDD, call 860-424-3000.

This Guide is intended to provide a summary of the more important rules and regulations governing sport fishing in Connecticut and to assist in the enjoyment of the angling experience. For legal purposes, the Regulations of Connecticut State Agencies and the General Statutes of Connecticut must be consulted.

2008 FISHING FORECAST

Anglers,

Diversity makes for Great Fishing in Connecticut! Trout, walleye, pike, catfish, striped bass, bluefish, scup, largemouth bass, smallmouth bass, blackfish, fluke, ... the list goes on and on. If you're looking for great fishing in the Northeast then Connecticut is the place to be. Avid anglers will love the challenge of matching wits with wily trout in our TMAs, the sophistication of competitive bass fishing, or night fishing for huge stripers in Long Island Sound, the tranquility of our trout parks, or the simple fun of fishing for scup off a jetty or pier. Whatever your fishing pleasure, you're sure to find it here in Connecticut.

OIL AND CHEMICAL SPILL RESPONSE

This year I am again asking all Connecticut anglers to join forces with DEP's **No Child Left Inside** initiative. There is no better way to introduce children to the outdoors than through the sport of fishing. The thrill of catching a fish is a sure way to provide a gift that will last a lifetime. You'll also be developing our next generation of anglers and conservationists. Please make a commitment to take a youngster fishing in 2008.

Experience what the 2008 fishing season has to offer.

Inland: Walleye fishing will continue to improve at Beach Pond, Lake Housatonic,

Mashapaug Lake, Coventry Lake, and Batterson Park Pond. The popularity of our Trout Parks continues to grow among young anglers and families. New Urban Fishing Waters at Beardsley Park Pond, Lake Wintergreen, Keney Park Pond and Mohegan Park Pond will provide good fishing for trout and channel catfish. Salmon anglers will continue to experience thrills as huge broodstock salmon are released into the Shetucket and Naugatuck Rivers.

DEP hatchery maintainer Tom Fitzgerald with one of the large broodstock Atlantic salmon at DEP's Kensington Hatchery.

Marine: Anglers can expect excellent fishing in 2008. The Nutmeg State offers year round fishing action that few places can rival. With over 100 species of fish found in Long Island Sound, anglers can enjoy some of the very best striped bass, bluefish, summer flounder, scup and tautog fishing along the entire coast. Striped bass and bluefish are abundant, tautog, black sea bass and hickory shad stocks are also increasing, summer flounder and scup are responding to management plans. An example of the excellent fishing; in 2007 over 90 trophy fish awards were issued with three new state records. Thanks to the support and participation of recreational anglers, effective fishery management practices are working. The State of Connecticut offers anglers countless fishing opportunities with many boat launches, excellent shore fishing locations at coastal state parks, and convenient party and charter boat fishing.

Please contact our Inland Fisheries Office (860-424-3474) or our Marine Fisheries Office (860-434-6043) for more information or if you have any questions.

Good luck & good fishing in 2008,

Edward C. Parker Chief, Bureau of Natural Resources

LICENSES

INLAND LICENSES

Fishing licenses are required for anyone 16 years of age or older fishing in the Inland District (see page 39 for demarcation between Inland and Marine Districts). Most licenses are issued on a calendar year basis and expire on December 31st.

LICENSES AVAILABLE AT TOWN HALLS, MANY TACKLE RETAILERS, AND IN PERSON OR BY PHONE FROM THE DEP STORE (860-424-3555):

Resident and Armed Forces Members*

Fishing	\$20.00
Fishing & Small Game Firearms Hunting	\$28.00
<u>Nonresident</u>	
Season Fishing	\$40.00
Three Day Fishing	\$16.00
Fishing & Small Game Firearms Hunting	\$88.00

SPECIAL LICENSES AVAILABLE ONLY FROM YOUR TOWN HALL:

Senior Citizen Lifetime Fishing License (65 and older)	Free
Mentally Retarded or Blind Lifetime Fishing**	Free
Disabled Persons Lifetime Fishing***	Free
Disabled Persons Lifetime Fishing & Firearms Hunting***	Eroo

Disabled Persons Lifetime Fishing & Firearms Hunting*** Free

*Any active, full-time member of the armed forces may be issued

a fishing and/or amal/ game firearms license for the resident for

a fishing and/or small game firearms license for the resident fee. Proof of membership during the calender year must be carried while using the license.

** Issuance of a free license to the blind or mentally retarded requires proof of disability in the form of a certificate provided by any person licensed to practice medicine in this state.

*** Any resident with the loss of a limb or the loss of the use of a limb and a doctor's certificate may be issued a free license. Qualified nonresidents who are residents of states which allow CT residents the same privileges are also eligible.

LOST LICENSE

To obtain a replacement license, return to the town clerk of the town where you originally purchased the license and submit a duplicate license application (\$1.00 fee). You will receive a temporary (5 day) certificate. Submit a copy of the duplicate license application with a \$6.00 fee to Licensing, DEP, 79 Elm Street, Hartford, CT 06106-5127 and a duplicate license will be issued.

RECREATIONAL MARINE LICENSES

Fishing licenses are not required in the marine district except for: A) persons taking lobsters for their own use by up to 10 pots or SCUBA and B) persons taking menhaden with a single gill net not more than 60 feet in length, for personal use from marine waters only. Marine licenses are issued on a calendar year basis, expire December 31st, are non-transferable, and are issued by DEP Licensing and Revenue at 79 Elm St, Hartford, CT 06106-5127.

Personal Use Lobster License

(Purchase of pot tags also required)\$60.00Personal Use Gillnet License for Menhaden\$50.00

A commercial license is required to take, or land (regardless where taken) fish, lobsters, blue crabs, squid, sea scallops, horseshoe crabs and bait species intended for sale from both the inland and marine districts. For further information on commercial fishing contact DEP Marine Fisheries Division at 860-434-6043 or write to Marine Fisheries Office, P.O. Box 719, Old Lyme, CT 06371.

NOTICE:

Some advertisements in this publication may state that "No sales tax" is due. This is because the retailer is located in a state that does not impose sales or use tax, and the retailer is not registered to collect Connecticut sales and use taxes. While you may not have to pay sales tax in the state where you bought the goods or services, you must pay Connecticut use tax on taxable goods or services purchased for use in Connecticut. For more information, see the Department of Revenue Services' Informational Publication 2005(17), Q&A on the Connecticut Individual Use Tax:

http://www.ct.gov/drs/lib/drs/publications/pubsip/2005/ip05-17.pdf

NOTICE TO SPORTSMEN

A judgement or a plea of guilty, forfeiture of a bond, or payment of a fine for a fishing, hunting, or trapping violation may result in the suspension of your fishing, hunting, or trapping license.

INLAND DISTRICT STATEWIDE SPECIES REGULATIONS

DETERMINING REGULATIONS

A summary of the STATEWIDE SPECIES OPEN SEASONS, LEGAL METHODS and LENGTH & DAILY CREEL LIMITS is listed in the table on pages 5 & 6. The Regulations on many water bodies differ from the Statewide regulations.

USE THIS TWO-STEP PROCESS TO DETERMINE REGULATIONS ON A SPECIFIC WATERBODY:

- 1. Check the table on pages 5 & 6 for the general statewide regulations.
- 2. Refer to the specific waterbody in the alphabetical listings of LAKES & PONDS (pages 16-26) or RIVERS & STREAMS (pages 27-37) for special site-specific regulations. If no site-specific regulations are listed for a waterbody, statewide regulations apply for seasons, methods, and/or limits.

Unless otherwise indicated in the the Lakes & Ponds and Rivers & Streams listings:

- Lakes and ponds are open year-round.
- Rivers & streams are open from 6:00 am on the 3rd Saturday in April through the last day of February (Closed to all fishing from March 1st to 6:00 am on the 3rd Saturday in April).

THE OPEN SEASONS LISTED IN THIS TABLE DO NOT APPLY IN AREAS CLOSED TO ALL FISHING DURING A PERIOD OF THE YEAR.

LOWER RIVER/TIDAL WATERS: Designated rivers & streams with no closed season. These include the entire Connecticut and Thames Rivers, and downstream portions of the Coginchaug, Farmington, Housatonic, Mattabesset, Mystic, Naugatuck, Niantic, Quinnipiac and Salmon Rivers. Check individual waterbody listing for boundaries.

For more information on LEGAL METHODS & GEAR, LENGTH LIMITS, CREEL & POSSESSION LIMITS and SPECIES, refer to the DEFINITIONS on pages 10 & 11.

NOTE: Regulations for several marine species found in the Inland District are subject to change.

NEW - URBAN FISHING AREAS & CHANNEL CATFISH

URBAN FISHING AREAS

- As part of DEP's "No Child Left Inside" initiative, DEP initiated a pilot program in 2006 to enhance fishing opportunities in Connecticut's major population centers.
- The initial site for this program was Bunnells Pond in Bridgeport's Beardsley Park, which was added to the spring trout stocking schedule in 2006.
- In 2007, Keney Park Pond (Hartford), Lake Wintergreen (Hamden/New Haven), and Mohegan Park Pond (Norwich) were added to the Urban Fishing program. DEP began stocking trout into Keney Park Pond and Lake Wintergreen that spring. Trout had already been stocked into Mohegan Park Pond for a number of years.
- Trout can typically provide a spring (and possibly fall) fishery in these areas. To provide a second, and year-round fishery, DEP decided to stock channel catfish into the Urban fishing Areas
- In June, 2007, 4,500 adult-size (14-18", 2-lb plus) channel catfish were stocked into the four pilot areas. An additional 750 9-12" fish were released into Lake Wintergreen.

CHANNEL CATFISH

- In 2007, DEP began a channel catfish stocking program in an effort to provide an additional year-round fishery for a large game fish. This is the first time that the DEP has released catfish into state waters.
- The catfish stocked by DEP are farmed fish obtained from commercial suppliers in Arkansas.
- In addition to the 5,250 catfish stocked in the Urban Fishing Areas, 8,900 9-12" catfish were released into the following waters:
 Lower Bolton Lake Maltby Lakes 2 & 3 Pattaconk Lake
 Black Pond Quonnipaug Lake Silver Lake
- All these lakes have adequate shore access and a sufficient forage base to support another population of large gamefish.
- DEP expects the 9-12" catfish released into these lakes will survive for many years and grow to much larger size. However, to jump start the fishery for 2007, 800 of the larger 14-18" catfish were also stocked.
- DEP currently plans to stock catfish annually. As with other fisheries programs, both the channel catfish stocking and the Urban Fishing programs will be assessed for effectiveness after several years.

FISHERIES ADVISORY COUNCIL

FISHERIES ADVISORY COUNCIL (FAC) - A group of dedicated citizens from all regions of the state working together for fish and fishing in Connecticut. For more information about the FAC, please call 860-424-3474.

The DEP stocks surplus broodstock Atlantic salmon during the fall, generally from mid-October through early December. Approximately 800 to 1,600 surplus salmon are stocked each year into three designated Broodstock Areas (fish may sometimes be released into other waters due to environmental conditions). These fish are typically two to five years old and weigh from 2 to 20 pounds. They are the progeny of sea-run Atlantic salmon that have been raised in hatcheries for the purpose of producing eggs for the Connecticut River restoration effort. Surplus broodstock are fish that are no longer needed in the restoration program. Stocked salmon surviving until March will begin to move downstream to the saltwater during the high spring flows.. Consequently, broodstock are seldom caught after March.

FISHING FOR BROODSTOCK ATLANTIC SALMON IS ALLOWED ONLY IN THE FOLLOWING AREAS:

Naugatuck River- From the confluence of the East and West Branches (Torrington) downstream to the Housatonic River. Housatonic River- Entire river downstream of the Derby Dam. Shetucket River-Downstream from the Scotland Dam (Windham) to the Water Street Bridge (Norwich).

SALMON ARE STOCKED INTO THREE DESIGNATED BROODSTOCK AREAS:

Naugatuck River- From Route 118, Litchfield-Harwinton, downstream to the Thomaston Dam (Upper section).

From Prospect Street, Naugatuck, downstream to Pines Bridge Road, Beacon Falls (Lower section).

Shetucket River- From the Scotland Dam, Scotland, downstream to the Occum Dam, Norwich.

DESIGNATED BROODSTOCK AREA FISHING RESTRICTION:

From October 1 to March 31, angling for all species in the salmon broodstock areas is restricted to fishing methods that are legal for Atlantic salmon (a single fly or a lure with a single free-swinging hook only). Additional weight may not be added to the line. Anglers are reminded that the season is closed from March 1st to the 3rd Saturday in April for all species other than broodstock Atlantic salmon except in the upper Naugatuck River Broodstock Area. This area is within the Naugatuck River TMA, which is open year-round for trout (catch-and-release only).

SEASONS, CREEL LIMITS & METHODS FOR THE PERIOD FROM DECEMBER 1, 2007 THROUGH MARCH 31, 2009:

Seasons	Creel limits	Methods (all seasons)
December 1, 2007 through March 31, 200	08 <u>ONE</u> (1) SALMON PER DAY	Fishing for Atlantic salmon is limited to
April 1, 2008 to 6:00 am, April 19, 2008	SALMON FISHING CLOSED	use of a SINGLE FLY or ARTIFICIAL
April 19, 2008 through September 30, 200 (6:00 am-opening day)	08 <u>ONE</u> (1) SALMON PER DAY	LURE WITH A SINGLE FREE-SWINGING HOOK. Additional weight may not be
October 1, 2008 through November 30, 20	008 CATCH AND RELEASE ONLY	added to the line.Snagging is strictly prohibited.
December 1, 2008 through March 31, 200	9 ONE (1) SALMON PER DAY	— Snagging is strictly prombited.

Important Note: The availability of surplus Atlantic salmon broodstock, stocking dates, and the regulations governing the fishery are subject to change. Details are provided to newspapers and are posted on the DEP website at www.ct.gov/dep. If you are unsure of the regulations, please contact DEP Fisheries staff at Hartford (860-424-3474), Marlborough (860-295-9523), Harwinton (860-485-0226), or Litchfield (860-567-8998).

ALEWIFE & BLUEBACK HERRING

Emergency Fishery Closure is in effect:

Alewife

Blueback Herring

TAKING OF ANADROMOUS ALEWIFE AND BLUEBACK HERRING IS <u>PROHIBITED</u> FROM ALL CONNECTICUT WATERS INCLUDING LONG ISLAND SOUND.

Alewife and blueback herring (collectively termed "river herring") runs have been declining. While the reasons for the decline are not fully understood, the DEP believes it is mostly due to predation by increasingly abundant striped bass. Healthy river herring populations are needed to provide food for many species.

To restore herring runs, the DEP is taking a number of actions including removing dams, building fishways, reintroducing pre-spawn adults into streams that had previously supported runs, and eliminating harvest. An immediate recovery is not expected. However, this closure may reduce the threat of further declines and enable river herring populations to recover more quickly in favorable years.

This emergency closure will be in place through at least March 2009 and will likely be extended. Check the DEP website (www.ct.gov/dep) or contact DEP Inland Fisheries (860-424-3474) or Marine Fisheries (860-434-6043) for more information.

LANDLOCKED ALEWIFE

Landlocked alewife populations are established in several Connecticut lakes and ponds (see page 13). Landlocked alewife may be taken by angling or scoop net only from the following lakes:

Amos Lake Candlewood Lake Quassapaug Lake Squantz Pond

o,. = aa.o oo a	a	.gg o. oooopo. o	,

A MESSAGE FROM DEP'S ENVIRONMENTAL CONSERVATION POLICE

Greetings Outdoor Sports Enthusiasts,

Whether you are hunting, fishing, trapping or boating there is always the potential that you or someone in your party could suffer an injury or even death while in the field. Practicing good safety habits can help to ensure the safe return of all at the end of the day so that your outdoor experience will be another fond memory. Good safety habits should always include following safety laws and regulations and using good common sense.

Here are some simple things that you can do to avoid being a victim of a tragic accident. Dress appropriately for the weather conditions and let someone know where you are going and when you expect to return. Be sure of your footing and aware of your surroundings. If your outing involves boating, wear your life jacket, especially in cold weather months. Sudden cold-water emersion and hypothermia affect even the strongest swimmers and impair their ability to save themselves or keep afloat long enough to be rescued by others. Make sure that your equipment is in good working order and it is always a good idea to bring a first aid kit of some kind with you. Know your route and how to get back out and give yourself enough time so that you are not rushed on the return trip.

These are just a few tips to help you have a safe outdoor experience; you can find more safety information in the DEP outdoor sporting guides and the Connecticut Boaters Guide published by the DEP Division of Boating Safety and I'm sure each of you can think of more. You can also help to protect our wildlife and fisheries resources by being vigilant and report suspected poaching activity or unusual or unsafe outdoor sports practices by calling the EnCon Police toll free TIP hotline at 1-800 842-4357.

Bureau of Outdoor Recreation

DEP patrol boat with a load of lobster traps seized for violations of Federal fisheries laws.

FISHING VIOLATIONS AND FINES:

- Fishing without a license: \$77.00
- Violation of sport fishing regulations (includes closed season, bag and size limits, methods of take and specific area restrictions: \$154.00 per count
- Destruction of posted notice: \$77.00
- · Failure to carry fishing license while fishing: \$77.00
- Violation of salmon fishing regulations: \$77.00
- Illegal importation/liberation of live fish: \$75.00 for each fish
- Fishing while license or privilege suspended: \$150.00
- Illegal fishing for or taking of fish or bait in the Inland District:
 \$154.00 per count
- Unauthorized fishing in reservoir: \$250.00
- Unauthorized obstruction of streams or ponds: \$250.00
- Illegal fishing near fishways: \$250.00
- Operation of a motorboat on Bantam River: \$50.00

The list above is only a partial listing of violations and their fines. These and other fisheries violations will be accompanied by a suspension of your hunting, fishing and trapping license(s). Help protect our natural resources for future outdoor sports enthusiasts, obey the law and report suspected violations by calling 1-800-842-HELP.

BE A RESPONSIBLE ANGLER

Protecting both the resource and your access to the resource requires more than simply knowing and following the fishing regulations!

RESPECT PRIVATE PROPERTY-

- Do not cast onto docks or into permitted swim areas (when in doubt, cast elsewhere).
- Ask permission before fishing from shore, or wading on private property.

DON'T LITTER, DON'T POLLUTE-

- Keep your boat & motor properly maintained.
- Retrieve all lures and gear.
- Don't release live bait.
- Leave your fishing area cleaner than you found it!

BE A SAFE BOATER-

Obey boating regulations, and check your safety gear frequently!

BE A GOOD NEIGHBOR-

- Treat fellow anglers, other recreational users and property owners with courtesy.
- Always be willing to share both the resource and your knowledge.

AND ALWAYS USE COMMON SENSE AND BE COURTEOUS!

PERMITS

Planning to:

STOCK FISH

IMPORT FISH INTO THE STATE CONDUCT A FISHING TOURNAMENT OR DERBY

USE GRASS CARP TO MANAGE AQUATIC PLANTS

Permits are required for these activities

DEP's Inland Fisheries Division administers a number of permits including the following:

IMPORTATION AND/OR LIBERATION PERMIT (GENERAL)

Authorizes the importation of live fish or live fish eggs from out-of-state and/or the liberation (stocking) of live fish or live fish eggs into Connecticut waters.

- •A liberation permit is neccessary whenever an individual or organization stocks live fish or fish eggs into any pond, lake or stream in Connecticut.
- •An importation permit is required for the importation into Connecticut of live fish or fish eggs.

LIVE FISH IMPORT PERMIT (for BAIT DEALERS)

Required for commercial fish hatcheries and bait dealers to import live fish or live fish eggs into the state.

NOTE: No permit is required to import common aquarium species. It is illegal to release any aquarium fish into public or private waters. Possession or importation of a number of fish species is prohibited. These prohibited species include piranha, walking catfish, black, silver & bighead carp, gizzard shad and all species of the family Channidae (snakeheads). For further information and a complete listing, contact Inland Fisheries at 860-424-3474.

INLAND FISHING TOURNAMENT/DERBY PERMIT

Required to conduct a fishing tournament or derby on waters open to public fishing involving anglers 16 years of age and older. Open water catch-and-release-only tournaments can be granted an exemption from Bass Management Area special regulations (exemptions available for all Bass Management lakes from September 1 through June 30, exemptions granted only for Gardner Lake and Mansfield Hollow Reservoir from July 1 to August 31). Additional guidelines and restrictions may apply for open-water trout tournaments/derbies conducted on waters managed by the state for trout.

IMPORTATION AND/OR LIBERATION PERMIT FOR TRIPLOID GRASS CARP

Authorizes the importation, possession and liberation of triploid grass carp into inspected/approved ponds. Possession of diploid grass carp is prohibited. Triploid grass carp represent one method of controlling nuisance aquatic vegetation. The Inland Fisheries Division inspects all ponds to determine regulatory compliance, particularly to verify that the fish can not escape from the waters in which they were stocked, thereby preventing off-site damage to aquatic habitats. Grass carp information packets and application forms can be obtained by contacting the Inland Fisheries Division at 860-424-3474.

To obtain permit applications or further information contact the Inland Fisheries Division at 860-424-3474. Convenient fillable PDF forms of the IMPORTATION/LIBERATION, LIVE FISH IMPORTATION and TOURNAMENT permits can be found on the DEP web site (www.ct.gov/dep).

and show your support by displaying a wildlife

license plate on your vehicle.

There are two great designs to choose from: the stateendangered bald eagle or the secretive bobcat.

Funds raised from sales and renewals of the plates will be used for wildlife research and management projects; the acquisition, restoration, enhancement, and management of wildlife habitat; and public outreach that promotes the conservation of Connecticut's wildlife diversity.

Application forms are available at DEP and Department of Motor Vehicle offices and online at www.ct.gov/dmv.

CANDLEWOOD LAKE DEPTH MAP

First produced in 2006, Connecticut DEP's Candlewood Lake depth map has become an angler favorite.

- Produced using state-of-the-art GPS technology.
- Field work and compilation ran from 1999 to 2005, and the final product is a color chart which measures 23 by 36 inches.
- The best and most current information on Candlewood Lake depths available.
- Maps are fully laminated, so the weather won't damage it.

Available from the **DEP STORE- \$10.95**

- Order by phone: 860-424-3555
- shop online: www.ct.gov/dep/store
- Visit our Hartford store or order by mail

DEFINITIONS

THE FOLLOWING PROVISIONS ARE TAKEN FROM THE INLAND DISTRICT SPORT FISHING REGULATIONS, AND DO NOT APPLY TO TAKING FISH FROM LICENSED COMMERCIAL HATCHERIES, PRIVATE WATERS LEGALLY REGISTERED WITH DEP, OR TO COMMERCIAL FISHING IN THE INLAND DISTRICT. INFORMATION ON COMMERCIAL FISHING IN THE INLAND AND MARINE DISTRICTS IS AVAILABLE ON REQUEST.

ANGLING: Fishing with hook and line, which must be personally attended. No more than two lines, with or without rods, may be used at one time. Each line may have any combination of hooks, flies or lures, of which a maximum of three hooks may be baited.

BAIT: Any animal or vegetable, or their parts, living or dead, used with a hook for the purpose of attracting and catching fish. Any fish legally acquired, except largemouth bass, smallmouth bass, chain pickerel, northern pike, trout, salmon, carp and goldfish may be used as bait.

BAIT SPECIES: The following species of fish, amphibians, aquatic insects and crustaceans may be taken by sport fishermen for personal use, but may only be sold if taken under an inland commercial bait license.

Bait species- Common shiner, golden shiner, fallfish, creek chub, spottail shiner, bridle shiner, blacknose dace, longnose dace, pearl dace, bluntnose minnow, fathead minnow, cutlips minnow, chub sucker, white sucker, killifish, mummichog, Atlantic & tidewater silverside, sand lance, frogs (except northern leopard frog), crayfish, perch bugs, hellgrammites and mayfly nymphs.

The legal methods for taking the bait species listed above are as follows:

Rivers & streams- Bait species may be taken at any time with seines not over 15 ft. long and 4 ft. deep, bait traps not over 20 inches long and 15 inches in diameter, and umbrella nets not over 4 ft. by 4 ft.

Lakes & ponds- Bait species may be taken at any time with bait traps not over 20 inches long and 15 inches in diameter and umbrella nets not over 4 ft. by 4 ft. Seines shall not be used in lakes and ponds except those designated by the DEP as open to commercial taking of bait. Where posted, taking, use or possession of fish as bait is prohibited in lakes and ponds.

All inland waters- During the open season for fishing, the species listed above may also be taken by hand, angling and scoop net.

BARBLESS HOOK: A curved, pointed device, without a barb, used to catch fish. Barbless hooks may be single, double or treble, and each point must be without a barb. For the purposes of this regulation, hooks manufactured with a barb are considered barbless if the barb has been bent down to the hook, broken off or otherwise made ineffective.

BOBBING: Fishing with a ball or mass of worms or other bait attached to a hookless line held in the hand or a line attached to a rod held in the hand.

BOW AND ARROW FISHING: Carp, suckers, eels and lampreys may be taken with a bow and arrow. These species may be taken by archery in streams and stream sections not stocked with trout, and in lakes and ponds, and only taken during the open season for fishing in those waters. Use of crossbows is prohibited. A fishing license is required

CAST NET: A net weighted at the edges which is cast out over bait to capture it in shallow water. The use of cast nets is prohibited in inland waters.

CHILDREN'S FISHING AREA: Angling in such areas is restricted to children under sixteen years of age when posted as such.

CLOSED SEASON: That period of time during which all fishing is prohibited in the area specified.

DAILY CREEL LIMIT: The quantity or number of fish of a species or species group that can be taken by an individual angler during the period from 12:01 a.m. to midnight.

DOWNRIGGER: A device, supplemental to a fishing line, used to deploy, via an electric or handpowered winch, reel or spool that projects over the side or stern of a boat and is used as a hoist, main line and terminal weight, one or more fishing lines to a desired depth in the water column.

FISHHOOK OR HOOK: A curved, pointed device, with or without barb, used to catch fish. Hooks may be single, double or treble and each point shall be considered as a single hook.

FISHING OR SPORT FISHING: Taking or attempting to take fish. In the Inland District, fishing is limited to angling, bow and arrow fishing, bobbing, ice fishing, snagging or snatching, spearing, scoop netting, and taking or attempting to take fish by hand.

FLOAT (BOBBER): Any buoyant object attached to a fishing line. No floats may be used unless personally attended.

FLY: A single or double hook dressed with hair, feathers, tinsel, thread, yarn or similar material to which no bait, spinner, spoon, plug or other device is added.

FLY FISHING: Angling with the use of a fly reel, fly rod, fly line, leader and a fly or flies. Extra weight may be built into the fly in its construction, as in a weighted nymph, and additional weight may be attached to the leader or line. The use of strike indicators is permitted.

HAND-HELD JIG: A rod, jig stick or line held in the hand used for fishing through the ice.

Connecticut's License Plate Program is working for you...

Since 1992, the Long Island Sound Fund has

- provided grants for the construction of 7 fishways to restore populations of alewife, blueback herring and other anadromous fish in Connecticut's rivers.
- provided funding for fishing piers, platforms, and educational signs at public fishing areas across the Nutmeg State that enhance access and promote greater awareness.

Do <u>your</u> part to continue funding for these important projects! Purchase a Preserve the Sound license plate for your car, truck, combination vehicle or boat trailer.

For more information, call 1-800-CT-SOUND.

DEFINITIONS (continued)

ICE FISHING: Not more than six tip-ups, floats (bobbers), similar devices, or hand-held jigs or any combination thereof not exceeding six in the aggregate may be used at one time. Persons under sixteen years of age may use not more than two devices. Not more than three baited hooks, with or without attractors, or three ice flies, or three artificial lures, or any combination thereof not exceeding three in the aggregate may be used with each tip-up, float (bobber), or similar device or hand-held jig. Devices must be personally attended. The name and address of the user must be legibly stamped on or attached to all devices.

INLAND DISTRICT: Is the area inland of the demarcation lines as listed on page 39.

LEADCORE LINE: A fishing line constructed with a metal core.

MINIMUM LENGTH: Measured from the tip of the snout to the end of the tail. No person shall possess any fish less than the lengths specified and any fish less than the minimum length, shall, without avoidable injury, be immediately returned to the water from which taken.

PANFISH: Includes yellow perch, white perch, calico bass, rock bass, bullheads, all species of catfish, and all species of sunfish.

POSSESSION LIMIT: The total number of fish of any species or species group that may be possessed by one person either on the person, on the waters of the state, the shores of these waters, or in any type of vehicle and **may not exceed the creel limits for one day**, as listed in this pamphlet. Fish so possessed shall be intact to the extent that neither the heads nor tails have been removed. Note that this does not restrict the number of legally acquired fish that may be kept in storage at home.

SCOOP NET: A manually operated, flexible mesh net attached to a hoop which is attached to a handle. The hoop may not be over 36 inches across the widest point and the mesh bag may not be more than 36 inches in depth at its deepest point. The use of any such net constructed of metal mesh or stiff plastic mesh is prohibited.

SEINE NET: A net weighted at the bottom, with top floats, that is used to encircle fish.

SET LINE: A line with one or both ends secured to the shore, or to a fixed or buoyant object in the water which is used for fishing and is not personally attended. Use of set lines in the inland district is prohibited.

SLOT LENGTHS: Length limits designated to reduce or increase the taking of fish by anglers.

Protected slot lengths- Lengths between which fish may not be kept by anglers.

Open slot lengths- Lengths between which fish may be kept by anglers

SNAGGING OR SNATCHING: The taking of fish by foul hooking, that is hooking fish in any part of the body other than the mouth. Snagging is prohibited in all waters in the Inland District except that, in streams open to fishing throughout the year, menhaden, alewives and blueback (glut) herring may be taken by these methods. Anglers are reminded that there currently is an emergency ban on the taking of anadromous alewife and blueback herring (see page 7).

SPEARING: The use of any pointed instrument, with or without barbs, propelled solely by hand. Carp, eels, suckers and lampreys may be taken by spearing in streams or sections of streams not stocked with trout during the open seasons for fishing in such waters. Prohibited in lakes and ponds. Underwater spear fishing and the use of any type of spear gun is prohibited in all waters within the Inland District.

STRIKE INDICATOR: Means a brightly colored, highly visible tab, sleeve or bead or similar material used in fly fishing. Such devices may be attached to the line or leader when used in areas restricted to fly fishing only.

TAKE OR TAKING: Killing, capturing or otherwise rendering into possession, any fish or bait species, or attempting to kill, capture or rendering into possession, or assisting in taking or attempting to take any fish or bait species.

TROUT: Include brook (charr), brown, lake, and rainbow trout and their hybrids.

SAVE ON YOUR TAXES!

Use your state income tax refund to help save Connecticut's wildlife and plants. Their future is on the line - the "Endangered Species/Wildlife" Fund line on your tax return. Just check the box to make a donation and show your support. Your gift is deductible from next year's federal income tax.

STATE OF CONNECTICUT DEPARTMENT OF ENVIRONMENTAL PROTECTION

VOLUNTEER OPPORTUNITIES

The Bureau of Natural Resources appreciates all the help it receives from volunteers each year. Typically, volunteers are from organized groups, but there are also some opportunities for individuals. Among the programs in which you may be able to participate:

Atlantic Salmon and Herring Restoration Programs

(for groups) - Contact Steve Gephard or Bruce Williams (Inland Fisheries Division) at 860-434-6043

CT Aquatic Resource Education Program (CARE)

(for individuals) - Volunteers are trained and certified to teach an introductory course in fishing. Training/Certification is offered once a year in February. Certified instructors must participate in one CARE event per year. Participation may include teaching or assisting the teaching of a 6 hour class in your hometown or helping out at a special event. A desire to pass on your angling knowledge and lots of enthusiasm for the sport are all we require to join the program. See page 38 for more! Contact Tom Bourret (860-663-1656) or George Babey (860-424-3481) of the Inland Fisheries Division.

Volunteer Angler Survey - Saltwater Anglers

(For Individuals) - See page 41 for details. Contact: Rod MacLeod at 860-434-6043, Marine Fisheries Division.

Thanks for your interest in the health of our fisheries resources!

AQUATIC NUISANCE SPECIES

An increasing number of damaging aquatic species are invading the waters of Connecticut. Zebra mussels and Eurasian water-milfoil are most familiar to anglers but other exotic species may cause problems as well. You can help prevent the spread of problem species by following these simple suggestions!

BEFORE LEAVING A BOAT LAUNCH:

- Completely drain all water from the boat, including BILGE WATER, LIVEWELLS and ENGINE COOLING SYSTEMS.
- 2. Inspect your **BOAT, TRAILER** and **EQUIPMENT**. Remove and discard all aquatic plants and animals, mud and debris you may have picked up while on the water.

AT HOME:

REMOVE ALL AQUATIC ORGANISMS, MUD & DEBRIS!

1. Rinse boat, trailer and equipment with tap water. A bleach solution can be used to clean livewells. Dispose of all rinse materials properly!

PLEASE:

- 1. **DON'T DUMP YOUR BAIT BUCKET OR RELEASE LIVE BAIT!** Avoid introducing unwanted plants and animals. Unless your bait was obtained on site, dispose of it in a suitable trash container.
- 2. **DO NOT TRANSPORT FISH, OTHER ANIMALS OR PLANTS BETWEEN WATER BODIES**. Release caught fish, other animals and plants only into the waters from which they came.

IT'S THE LAW (Public Acts 03-136 and 04-203)!

- Boaters must inspect their vessel for vegetation and properly remove and dispose of any vegetation before transporting the vessel. You can be fined up to \$100 per plant and may have to appear in court for failure to comply.
- The importation, transportation, sale, purchase, possession, cultivation or distribution of a number of invasive plants including the following aquatic plants is prohibited:

Curly leaved pondweed, Fanwort, Eurasian water-milfoil, Variable water milfoil, Water chestnut, Egeria, Hydrilla, Common reed, Purple loosestrife, Pond water-starwort, Parrotfeather, Brittle water-nymph, American water lotus, Yellow floating heart, Giant salvinia, Yellow iris, Water lettuce, Watercress, Onerow yellowcress

Violators can be fined up to \$100 per plant!

EMERGING DISEASES

Plants, invertebrates and fish aren't the only invaders. Just as insidious are a number of new diseases and parasites that affect fish (but are harmless to humans). Among the new diseases that have been in the news recently are:

- Viral Hemorrhagic Septicemia (VHS) Previously associated with salmonids in Europe and some marine finfish, a new strain
 has been found in the Great Lakes. This new strain affects a wide range of freshwater fish species, and has caused kills, some
 significant, of a number of different fish species in the Great Lakes. To prevent the spread of VHS, the USDA in late 2006 placed
 special restrictions on the interstate transport of live fish from the eight states that border the Great Lakes.
- Spring Viremia of Carp (SVC) This highly contagious viral disease mainly affects minnow species, most notably common carp (including domesticated koi). Once infected fish show symptoms, mortality ranges from 30 to 90%. First North American outbreak was observed in a koi farm in North Carolina in 2002. The virus has since emerged in wild carp populations in Wisconsin and Illinois, and in koi ponds in Washington State. This virus can survive in water or mud for at least several weeks. USDA is developing regulations that place special restrictions on the importation of SVC-susceptible species into the United States.
- Largemouth Bass Virus (LMBV) See box on opposite page for more information.

HELP STOP THE SPREAD!

Below is more detailed information on four nuisance species present in Connecticut. There are numerous other freshwater aquatic invaders of concern to Connecticut. Some, including tench, rusty crayfish (Orconectes rusticus), Asian clam (Corbicula fluminea), hydrilla and Largemouth Bass Virus have been found in Connecticut waters. A number of others including didymo (see page 37), New Zealand mud snail, landlocked gizzard shad, silver, black and bighead carp, aquarium species such as snakehead fish (family Channidae), and emerging new diseases such as VHS and SVC could eventually find their way to Connecticut.

ALEWIFE (LANDLOCKED)

Landlocked alewives (a member of the herring family) are abundant in many Connecticut lakes and are commonly used by anglers as a bait fish. The widespread use of landlocked alewives as bait has resulted in these fish becoming established in lakes where they can be highly detrimental to other fish species. Once landlocked alewives become established, their population numbers can increase quickly, allowing them to outcompete other fish species for available food. Also, alewives can feed on egg and larval stages of other species such as trout, perch, walleye and bass. Seldom can they be removed from a lake once they establish a population.

East Twin Lake (Salisbury) and Wononscopomuc Lake (Lakeville) provide examples of the effects of landlocked alewives. Each of these lakes had fishable populations of Kokanee salmon for many years. Alewives were accidentally introduced into each of these lakes and the salmon populations declined and then disappeared. For these reasons we recommend that anglers take great care when discarding their unused bait at the end of a fishing trip. Do not empty the bait bucket into the lake (an alternative is to freeze and save for the next trip). Even if you're not using alewives as bait, there may be one or two in the bucket that may lead to establishment of a population. These precautions will help limit the spread of an unwanted and potentially detrimental species.

Remember-The use of live alewives, blueback herring, gizzard, hickory, or threadfin shad as bait is prohibited in:

Alexander Lake Saugatuck Reservoir Shenipsit Lake West Hill Pond

Colebrook Reservoir West Twin Lake

East Twin Lake Wangumbaug (Coventry) Lake Wononscopomuc Lake

Lake Pocotopaug West Branch (Hogback) Reservoir

WATER CHESTNUT

Dense water chestnut growth can make fishing, boating, swimming and other recreational activities nearly impossible. Water chestnut has been found in Keeney Cove (Connecticut River), the Hockanum and Podunk Rivers, ponds in Eastford & West Hartford, and Bantam Lake in Litchfield/Morris. Anglers fishing in the Connecticut River, its tributaries, and elsewhere should be on the lookout for this highly invasive plant. DEP and other organizations are involved in eradication efforts.

Water chestnut is a rooted, annual aquatic plant with triangular-shaped floating and feather-like submerged leaves. Its sharp, spiny fruits wash ashore and can inflict painful wounds if stepped on.

If you find this plant, contact Harry Yamalis at harry.yamalis@po.state.ct.us or 860-424-3034.

ZEBRA MUSSEL

Zebra mussels have been found in one lake in western Connecticut (East Twin Lake). Anglers fishing in western Connecticut should use extra care to avoid transporting water, aquatic vegetation, and possibly zebra mussels to new locations.

The zebra mussel is a black and white striped, bivalve mollusc which was introduced into North American waters through the discharge of ship ballast water. Since its discovery in Lake St. Clair (Michigan/Ontario) in 1988, the zebra mussel has spread throughout the Great Lakes, the Mississippi River system and most of New York State, including Lake Champlain and the Hudson River.

This mussel can clog power plant, industrial and public drinking water intakes, foul boat hulls and engine cooling water systems, and may disrupt aquatic ecosystems.

LARGEMOUTH BASS VIRUS (LMBV)

- This virus was first found in 1991 at Lake Weir (Florida). Originally thought to be limited to southern waters, this disease has spread northwards into the Midwest and Northeast.
- Although LMBV can infect a number of fish species, it is only known to cause mortality of largemouth bass, and has been responsible for a number of notable fish kills throughout its southern distribution.
- LMBV can be transmitted by consumption of infected prey, through the water, and by fish-to-fish contact. The virus is thought to be most active during the warmer summer months. Because the virus may survive in water for up to a week, it can be transferred between water bodies in improperly cleaned livewells.
- Stress appears to promote the onset of symptoms that can lead to death. Common stressors include warm water temperatures, low dissolved oxygen concentrations, overcrowding in livewells, and improper handling by anglers.
- DEP Fisheries biologists began collecting largemouth bass to test for LMBV in 2005. Each year, several Connecticut lakes will be sampled. Bass from Amos Lake (Preston) and Gardner Lake (Salem) have tested positive for LMBV.
- Properly cleaning and disinfecting boats, livewells and gear will help prevent the spread of this virus. Anglers should never transfer fish between water bodies!

ARE THE FISH I CATCH SAFE TO EAT? (860) 509-7740

The summary of advisories issued in the past by the Connecticut Department of Public Health and Department of Environmental Protection is updated annually and included as a reminder to anglers. These advisories apply to recreationally-caught fish from Connecticut waters. Individuals in the high risk group should be particularly careful in their fish consumption.

Proper cleaning and cooking methods include: removing the skin, "lateral line" area, belly flaps and dark meat, and broiling or grilling. These methods can reduce PCB levels by 50%.

Advisory	Waterbody	Fish Species	High Risk Group ^A	Low Risk Group ^B	Contaminant
Statewide Freshwater	All Fresh Waterbodies (See more restrictive advice	Trout	No Limits on Consumption ^c	No Limits on Consumption

	Union Pond (Manchester)	Carp, Catfish, Bass	Do not eat	Do not eat	Chlordane
Specific	Lamminian di Carredi arra	Striped Bass	Do not eat	One meal per 2 months	PCBs
Saltwater	Long Island Sound and connected rivers	Bluefish over 25"	Do not eat	One meal per 2 months	PCBs
Fish		Bluefish 13-25" [□]	One meal per month	One meal per month	PCBs

- (A) **High Risk Group** includes pregnant women, women planning to become pregnant within one year, nursing mothers and children under six.
- (B) Low Risk Group included everyone not in the High Risk Group.
- (C) It is prudent for the High Risk Group to eat no more than one large trout (over 15") from lakes and ponds per month.
- (D) Bluefish under 13" are not on the advisory because they have not been found to contain PCBs at levels sufficient to merit an advisory.

FOR MORE INFORMATION

Including the fish consumption fact sheet, a special fact sheet for pregnant women, foreign language summaries, and for updates visit the Department of Public Health (CTDPH) website at: www.ct.gov/dph or call CTDPH.

Have health questions, call CTDPH at 860-509-7740.

Have fishing questions, call CTDEP at 860-424-3474.

DISABLED ACCESS

These areas in the Inland District provide fishing access with primary use intended for persons with disabilities. Check the Coastal Launch and Coastal State Park Sections (pages 47 & 48) for areas in the Marine District.

Angus Park Pond, *Glastonbury*. Off Manchester Road (Route 83) turn east on Fisher Road. Located on upper dike in Town Park.

Beachdale Pond, *Voluntown*. Route 149 next to boat access area. **Beaver Brook Ponds**, *Windham*. Off Back Road at dam/access area.

Bigelow Pond, Union. At boat launch in Bigelow Hollow SP.

Billings Lake, *North Stonington*. At dam adjacent to boat access area.

Black Pond, Meriden-Middlefield. Adjacent to boat ramp.

Bladens Brook, Seymour. Access only by permission of Seymour Land Conservation Trust.

Connecticut River-Haddam Meadows State Park, *Haddam*. Dock at the boat launch in Haddam Meadows State Park.

Connecticut River-Salmon River Cove, *East Haddam*. Dock at state boat launch.

Coventry Lake (Wangumbaug Lake), *Coventry*. At state boat launch.

Day Pond, *Colchester*. Off Route 149 at dam in Day Pond SP.

Eagleville Lake, *Coventry-Mansfield*. On dam off Route 275.

Eight Mile River, East Haddam. Devil's Hopyard SP.

Farmington River- West Branch, Barkhamsted. Off dirt road south of Route 318.

Farmington River, *Unionville*. On Farmington Land Trust (www.farmingtonlandtrust.org) property upstream from Route 177 (between River Road and Railroad Avenue, southerly side of river).

Gardner Lake, Salem-Montville-Bozrah. On dam at Lake Road.

Highland Lake, Winchester. At state boat launch.

Holbrook Pond, Hebron. On dam adjacent to access area.

Hopeville Pond, *Griswold*. At end of State Park campground.

Horse Pond, Salem. At access area on Route 85.

Lake Saltonstall, *Branford*. At SCCRWA access area off Hosley Avenue.

Mansfield Training Center Pond, *Mansfield*. Located just east of the junction of Routes 44 & 32.

Mashapaug Lake, *Union*. Off the dock at boat launch in Bigelow Hollow SP.

Mill River, Hamden. At Clark's Pond Dam.

Pattaconk Lake (Russell Jennings Pond), *Chester.* Located between dam and beach in Pattaconk Recreation Area.

Quinebaug Public Fishing Ponds, *Plainfield*. At Quinebaug State Fish Hatchery off Route 14.

Salmon Brook (East Branch), Granby. East side of river just above Route 20.

Salmon River Fly Area, Colchester. 0.9 miles north of Route 16 on River Road.

Salmon River, *East Hampton*. South end of picnic area off Gulf Road just south of Route 16.

Saugatuck Reservoir, Easton-Redding-Weston. Parking area near dam.

Scoville Reservoir, Wolcott. At town boat launch.

Southford Falls Pond, Oxford-Southbury. In Southford Falls SP.

Squantz Pond, New Fairfield. Near Squantz Pond SP boat launch.

Stratton Brook Park Pond, *Simsbury*. In Stratton Brook SP.

Walkers Reservoir (East), *Vernon.* Turn south near Route 31 and I-84 junction on Reservoir Road.

LAKES AND PONDS

The following lakes and ponds are available for public fishing through the courtesy of the owners or state ownership.

Determining fishing regulations is a simple two-step process:

- 1. Check the regulation table (pages 5-6) for general statewide Species, Legal Methods, and Limits regulations.
- 2. Look up the waterbody in the alphabetical list of lake and ponds to find any special regulations that apply. If no site-specific regulations are listed for a waterbody, statewide regulations apply.

Lake and Pond Legend

Public boat launching area Cartop boat launching area Facilities for disabled State campground Shore fishing access State picnic area

(T SMB)-Most common species-those in BOLD type should provide the best fishing.

Italics - Access/stocking information.

Special Management Lakes are color-coded for major gamefish species:

The boating laws and regulations provided in this guide are brief summaries of selected state boating safety statutes and regulations, and local ordinances. For complete boating regulations and additional information, please refer to the 2008 Connecticut Boater's Guide which can be obtained from the DEP Boating Division (860-434-8638).

ALLEN BROOK POND (see Wharton Pond), Wallingford

ALEXANDER LAKE, Killingly (215 acres) Boat access through private right-of-way. Species: (T LMB SMB CP S BB WP YP)

Season: Open 6:00 am 3rd Saturday April-last day February. Other: The possession and use of any live alewives, blueback (glut or river) herring, gizzard, hickory or threadfin shad as bait is prohibited. Motor size limit- 12 cu in (Approx. 10 hp).

AMOS LAKE, Preston (113 acres)

Species: (T CP LMB BB AE YP S)

Season: Open 6:00 am 3rd Saturday April-March 31.

Largemouth & smallmouth bass: 12" to 18" protected slot limit. Daily creel limit-6 bass, only 1 may be 18" or greater.

Trout: From March 1-March 31, Daily creel limit-1,

16" minimum length.

Other: 8 mph speed limit. See 2008 Boater's Guide for summer exemption.

ANDERSON POND (Blue Lake), North Stonington (57 acres) Species: (LMB CP CB S BB YP)

ANGUS PARK POND (Eastbury Pond), Glastonbury (9.4 acres)

Species: (T CP LMB S BB YP) Season: Open 6:00 am 3rd Saturday April-October 31.

Other: Boats and canoes prohibited. ASHLAND POND, Griswold (89 acres)

Species: (LMB CP YP S)

ASPINOOK POND, Lisbon/Griswold/Canterbury (301 acres) Informal boat access off Butts Bridge Road, no facilities. Commercial launch (fee charged) at private campground off Ross Hill Road.

Species: (LMB WP YP S CA CB)

Other: Butts Bridge is the demarcation line between the pond

and the Quinebaug River.

AVERY POND, Preston (36 acres) Species: (CP LMB YP BB S) Other: 8 mph speed limit.

BABCOCK POND, Colchester (119 acres)

Species: (LMB YP S CP BB) Other: 8 mph speed limit.

BACKWATER POND, Thompson

Children's Pond: Fishing restricted to children under age 16 in

town park.

RIVERS AND STREAMS

The following rivers and streams or sections thereof are available for public fishing through the courtesy of the landowner. or where indicated by posters, through cooperative agreement, lease, or state ownership.

Determining fishing regulations is a simple two-step process:

- 1. Check the regulation table (pages 4-6) for general statewide Species, Legal Methods, and Limits regulations.
- 2. Look up the waterbody in the alphabetical list of Rivers and Streams to find any special regulations that apply. IF NO SITE-SPECIFIC REGULATIONS ARE LISTED FOR A WATERBODY, STATEWIDE REGULATIONS APPLY.

Rivers and Streams Legend

BN Wild brown trout

Special Management Areas are color-coded for major gamefish species: TROUT **BASS BROODSTOCK SALMON**

Other fish species are listed for several rivers, see Fish Species Abbreviation key in Lakes & Ponds section (page 16).

Special management areas for trout (alternative regulations such as extended seasons, minimum lengths & reduced creel limits):

TROUT MANAGEMENT AREAS (TMA)- High quality fisheries offering year-round opportunities.

TROUT PARKS- Easy to fish, frequently stocked areas.

TROPHY TROUT STREAMS- Stocked with a higher proportion

SEA-RUN TROUT STREAMS- Areas where DEP is working to establish populations of anadromous brown trout.

WILD TROUT MANAGEMENT AREAS (WTMA)- There are three classes of WTMAs:

- Class 1 Abundant wild trout, not stocked.
- Class 2 Wild trout and some stocked fry & fingerlings.
- Class 3 Some wild trout, most also stocked with catchable size & fingerling size trout.

LOWER RIVER/TIDAL WATERS - Designated rivers & streams with no closed season including the entire Connecticut and Thames rivers, and downstream portions of the Coginchaug, Farmington, Housatonic, Mattabesset, Mystic, Naugatuck, Niantic, Quinnipiac, and Salmon rivers.

PUBLIC ACCESS TO FISHING WATERS is restricted to rights-of-way designated by poster or by permission of landowner. On stateleased streams, fishermen must wade or stay near the stream bank as indicated by signs.

ABBEY BROOK, Somers (T BK)

Intermittent sections from Ninth District Road downstream to Somersville Mill Pond.

ALLYNS BROOK, Durham (T)

Intermittent sections from Route 17 downstream to the Coginchaug River.

ANGUILLA BROOK, Stonington (T)

Intermittent sections from Route 184 downstream to Route 1.

ASPETUCK RIVER, Easton-Weston (T)

Intermittent sections from Route 58 along Route 136 to the Saugatuck River.

BALL POND BROOK (includes Disbrow Pond), New Fairfield (TBN) Intermittent sections from Bigelow Road through Routes 37 and 39 to Sawmill Road.

BANTAM RIVER (WEST BRANCH), Litchfield (T)

Intermittent sections from the Goshen-Litchfield town line at Brooks Road through Route 63 to the confluence with the Bantam River Inlet near Route 202.

BANTAM RIVER (INLET to Bantam Lake), Litchfield (T) Intermittent sections from Route 202 to approximately one half mile upstream of confluence with Bantam Lake.

BANTAM RIVER (OUTLET from Bantam Lake), Litchfield (T) Downstream of Bantam Lake from Bantam to Kenyon Road in West Morris Station.

Methods: Fly fishing only where indicated by posters.

BARTLETT BROOK, Lebanon (T)

Intermittent sections from Brewster Pond downstream to Yantic River.

BEACON HILL BROOK, Bethany-Naugatuck-Beacon Falls (T BK BN)

From Route 63 crossing in Bethany to confluence with Naugatuck River.

WILD TROUT MANAGEMENT AREA (Class 3)

From Route 63 crossing in Naugatuck downstream to confluence with Naugatuck River:

Trout: 9" minimum length.

BEAVER BROOK, Barkhamsted (T BK)

Intermittent sections from West Center Hill Road through Peoples State Forest (Beaver Brook/Greenwoods Roads) to Route 318.

BEAVER BROOK (includes Fire Ponds), Franklin-Sprague (T) Intermittent sections along Route 207 to the Shetucket River.

BEAVER BROOK, Windham-Scotland (BK BN)

MERRICK BROOK WILD TROUT MANAGEMENT AREA

(Class 1) In Talbot Wildlife Management Area from Route 14 to Merrick Brook:

Season: Open year-round.

Methods: Barbless single-hook artificial lures and flies only. Trout: Catch and Release Only.

BELCHER BROOK, Berlin (T)

Intermittent sections from Four Rod Road to Lower Lane.

BIBLE ROCK BROOK, Haddam-Middletown (T) # Intermittent sections along Route 154.

BIGELOW BROOK. Eastford-Union (T)

Intermittent sections from Mashapaug Lake to Natchaug River.

BIRDSEYE BROOK, Cornwall (T) Within the Mohawk Ski Area.

27

BLACKBERRY RIVER, Norfolk-Canaan (T BN)

From 1/2 mile west of Route 272 along Route 44 and Lower River Road to confluence with Housatonic River.

WILD TROUT MANAGEMENT AREA (Class 3)

From Whiting River to confluence with Housatonic River. **Trout**: 9" minimum length.

BLACKLEDGE RIVER, Bolton-Hebron-Marlborough (T)

Intermittent state-owned sections from Gay City State Park to the Salmon River.

Trout: 9" minimum length – Downstream of Route 94, Glastonbury, to the Salmon River.

BLACKWELL'S BROOK, Brooklyn-Canterbury (T)

Intermittent sections from Woodward Road to the Quinebaug River.

BLADENS BROOK, Woodbridge-Seymour (T BK)

From Sanford Road along Route 67 to 1/4 mile below Chatfield Street, includes tributary (Hopp Brook) along Miller Road.

BRANCH BROOK, Watertown (T)

TROUT PARK

Within Black Rock State Park: **Trout**: Daily creel limit-**2**.

BRANFORD RIVER, Branford-North Branford (T)

Intermittent sections from Route 22 to I-95.

BROAD BROOK, Ellington (T BK BN)

Intermittent sections along Muddy Brook Road, and from Broad Brook Mill Pond to Scantic River.

BROAD BROOK. Preston (T)

Intermittent sections from Swantown Road to Old Jewett City Road.

BUCK BROOK, Portland (T)

In Meshomasic State Forest.

BUCKHORN BROOK, Enfield (T)

Intermittent sections from Farm Road downstream to the Scantic River.

BUNGEE BROOK, Eastford-Woodstock (T)

Intermittent sections from Route 171 downstream to the Still River.

BUNNELL BROOK (Burlington Brook), Burlington (T)

From Covey Road, then along Route 4 to confluence with Farmington River:

Trout: 9" minimum length downstream of Covey Road.

BUTTERNUT BROOK, Litchfield (T)

Upstream of Route 202 to confluence with the Bantam River.

BUTTONBALL BROOK, Chaplin (T)

Intermittent sections from Route 6 downstream to the Natchaug River.

BYRAM RIVER. Greenwich (T)

From Merritt Parkway to Glen Ridge Road.

CANDLEWOOD HILL BROOK, Haddam (T)

Intermittent sections along Candlewood Hill Road.

CARR BROOK (Cox Brook), Portland (T)

Intermittent sections from South Road downstream to Penfield Hill Road.

CARSE BROOK, Sharon (T)

Smith Hill Road to Housatonic River.

CATTLE LOT BROOK, Marlborough (T)

From Quinn Road downstream to Dickinson Creek.

CEDAR SWAMP BROOK, Mansfield (T)

Intermittent sections from Route 44 downstream to Eagleville Pond.

CEDAR SWAMP BROOK, Stafford (T BK)

Nipmuck State Forest from Crooked Road downstream to Roaring Brook.

CEDAR SWAMP BROOK, Sterling (BK)

Intermittent sections from Portertown Road to the Moosup River.

CHATFIELD HOLLOW BROOK, Killingworth (T)

TROUT PARK

In Chatfield Hollow State Park:

Trout: Daily creel limit-2.

CHERRY BROOK, Canton (T BN BK)

From Routes 179 and 309, along Route 179 through Canton Center.

Trout: 9" minimum length downstream of Route 179.

CHOATE BROOK, Preston (T)

Intermittent sections from Route 165 to the Quinebaug River.

COGINCHAUG RIVER, Durham-Middlefield-Middletown (T)

Intermittent sections from Route 17 in Durham through Wadsworth Falls State Park.

LOWER RIVER/TIDAL WATERS-no closed season:

Downstream from Route 3 bridge to confluence with Mattabesset River.

Trout: Daily creel limit-2, 15" minimum length.

CONNECTICUT RIVER, Enfield to Old Lyme

LOWER RIVER/TIDAL WATERS-no closed season:

Includes entire river in Connecticut

(AE CA CB LMB NP SMB S WA WC WP YP)

Large & smallmouth bass: 12" minimum length.

Trout: Daily creel limit-2, 15" minimum length.

Northern pike: 24" minimum length.

Alewives/Blueback Herring: Special closures may be in effect (see page 5 & 7).

COPPERMINE BROOK, Burlington-Bristol (T BK BN)

Intermittent sections from South Main Street to Stevens Street.

PEQUABUCK RIVER TROUT MANAGEMENT AREA

In Bristol from Artisan Street downstream to confluence with Pequabuck River.

Season: Open year-round.

Trout: Catch and Release Only.

COPPS BROOK, Stonington (BK)

Access from Route 184.

CORY BROOK, Canterbury (T)

Intermittent sections from Gooseneck Hill Road downstream to Aspinook Pond.

CRYSTAL LAKE BROOK, Stafford (T)

Intermittent sections along Route 30.

DARK HOLLOW BROOK, Glastonbury (BK)

In Meshomasic State Forest along Route 2.

DEEP BROOK, Newtown (BK BN)

WILD TROUT MANAGEMENT AREA (Class 1)

From Wasserman Way to confluence with Pootatuck River: **Season**: Open year-round.

Made also Davidson size de la

Methods: Barbless single-hook artificial lures and flies only.

Trout: Catch and Release Only.

Note: Wild Trout Management Area includes a portion of the Pootatuck River upstream and downstream of the confluence as posted by DEP.

DEEP RIVER, Deep River (T)

Intermittent sections from Hoopole Hill Road downstream to Pratt Read Reservoir.

DELPHI BROOK, Stafford (BK BN)

Intermittent sections along Route 19.

DENISON BROOK, Voluntown (BK)

In Pachaug State Forest, south of Route 138.

DICKENSON CREEK, Marlborough (T)

Salmon River State Forest.

Trout: 9" minimum length-Downstream of Route 66 to the Salmon River.

EAST ASPETUCK RIVER, New Milford-New Preston (**T** BN) Intermittent sections accessible from Routes 45 and 202 to Wells Road.

WILD TROUT MANAGEMENT AREA (Class 3)

From Lake Waramaug to confluence with Housatonic River. Trout: 9" minimum length.

EAST RIVER, Guilford (T)

Intermittent sections from Guilford Lakes downstream to Route 1.

EAST SWAMP BROOK, Bethel (T)

Intermittent sections from Meckaur Municipal Park through Plumtrees Road to Route 302.

EDSON BROOK, Stafford (T)

Intermittent sections from Crystal Lake Brook to Middle River.

EIGHT MILE BROOK, Middlebury-Oxford (**T**) Intermittent sections from Judd Hill, through Larkin Trail State Park and Southford Falls State Park to Route 188, then to Barry

TROUT PARK

Road.

Within Southford Falls State Park:

Trout: Daily creel limit-2.

A 5 **EIGHTMILE RIVER**, East Haddam-Lyme (T) Devils Hopyard State Park and intermittent sections below the

park to Hamburg Cove.

Trout: 9" Minimum length - From Foxtown Road to the dam at Mt. Archer Road.

SEA RUN TROUT STREAM

Downstream of dam at Mt. Archer Road:

Season: Open year-round.

Trout: Daily creel limit-2, 15" Minimum length.

EIGHTMILE RIVER (EAST BRANCH), Salem-East Haddam-Lyme (T)

Intermittent sections along Darling Road and Salem Road.

Trout: 9" Minimum length - Downstream of Witch Meadow Road, Salem to the Eightmile River.

EIGHTMILE RIVER, Southington (BN)

WILD TROUT MANAGEMENT AREA (Class 1)

Entire river in Southington: Season: Open year-round.

Methods: Barbless single-hook artificial lures and flies only.

Trout: Catch and Release Only.

EKONK BROOK, Plainfield (T)

Intermittent sections from Route 14A downstream to the Moosup River.

EXETER BROOK, Lebanon (BK)

In Bartlett Brook Wildlife Management Area.

FALLS RIVER, Essex-Westbrook (T)

Intermittent sections along Witchhazel Road downstream to Mares Hill Road.

FARM RIVER, Branford-East Haven-North Branford (T BN) Intermittent sections from Northford to I-95.

WILD TROUT MANAGEMENT AREA (Class 3)

From Mill Road (downstream of Pages Millpond) in North Branford to I-95 bridge (East Haven):

Trout: 9" minimum length. **SEA RUN TROUT STREAM**

Downstream of I-95 bridge: Season: Open year-round.

Trout: Daily creel limit-2, 15" minimum length.

FARMILL RIVER, Monroe-Shelton-Stratford (T)

Intermittent sections from Moose Hill Road (Monroe) to Route 110 just above Housatonic River.

FARMINGTON RIVER (WEST BRANCH and MAINSTEM).

Hartland-Barkhamsted-New Hartford-Canton-Burlington-Farmington-Avon-Simsbury-Bloomfield-East Granby-Windsor

Intermittent sections from Goodwin Dam to the Connecticut Sand and Stone facility, and at the Winchell Smith Dam (Farmington) and Tariffville Gorge (Bloomfield). Then from mouth of tailrace canal below Rainbow Dam to confluence with Connecticut River. For Farmington River Flows call Metropolitan District Commission (MDC) Information: (860) 278-7850.

$\Delta +$ TROPHY TROUT STREAM

From Goodwin dam (Hartland) downstream to Route 177 Bridge in Unionville.

Trout: daily creel limit-2, 12" minimum length.

Except in the two Trout Management Areas listed below: WEST BRANCH-FARMINGTON RIVER TROUT

MANAGEMENT AREA, Barkhamsted-New Hartford

From approximately one mile upstream of the Route 318 bridge (as posted) downstream to the Route 219 bridge:

Season: Open year-round. Methods: Barbless hooks only Trout: Catch and Release Only.

FARMINGTON RIVER TROUT MANAGEMENT AREA

Avon-Burlington-Unionville

From the base of the Lower Collinsville Dam downstream approximately three miles to the Route 4 Bridge:

Season: Open year-round.

Trout: Catch and Release Only from September 1 to 6:00 am 3rd Saturday in April.

Trout: Daily creel limit-2, 12" minimum length from 6:00 am 3rd Saturday in April to August 31.

LOWER FARMINGTON RIVER, Farmington to Windsor

From Route 177 bridge in Unionville Center downstream to Rainbow Reservoir Dam.

Trout: Daily creel limit-5, 9" Minimum length.

LOWER RIVER/TIDAL WATERS-no closed season: Windsor

From mouth of tailrace canal below Rainbow Dam to confluence with Connecticut River.

Trout: Daily creel limit-2, 15" minimum length.

Note: All fishing prohibited in tailrace canal and from mouth of tailrace upstream to Rainbow Dam.

FAWN BROOK. Hebron-Marlborough (T)

Intermittent sections from Route 85 to Route 66 (Salmon River State Forest).

Trout: 9" minimum length downstream of Slocum Road.

FAWN BROOK (WEST BRANCH), Marlborough-Hebron (T) Intermittent sections from Martin Road to Route 66.

Trout: 9" minimum length downstream of Slocum Road.

FAWN HILL BROOK, Marlborough (T)

Intermittent sections from Route 66 downstream to Dickinson Creek.

FENTON RIVER, Mansfield-Willington (T BN)

Intermittent sections from Route 74 to Mansfield Hollow Reservoir.

WILD TROUT MANAGEMENT AREA (Class 3)

Entire stream in Mansfield and Willington:

Trout: 9" Minimum length.

FIVEMILE RIVER, Thompson-Putnam-Killingly (T)

Intermittent sections from New Road to the Quinebaug River.

FLAT BROOK. East Hampton (T BK)

Intermittent sections along Route 16 downstream to the Salmon River.

FRENCH RIVER, Thompson (T)

Intermittent sections from North Grosvenordale Pond to Blain Road.

FRESHWATER BROOK, Enfield (T)

Intermittent sections from Route 220 downstream to the Connecticut River.

FURNACE BROOK, Cornwall Bridge (BN)

From the bridge on Route 4 upstream approximately 1-1/2 miles, as posted.

HEATHER REAVES WILD TROUT MANAGEMENT AREA (Class 2)

Upstream from Housatonic River as posted.

Trout: Daily creel limit-2, 12" minimum length.

FURNACE BROOK, Stafford (T)

Intermittent sections from Staffordville Lake along Route 19 and Furnace Brook Road to Glenville Pond.

GARDNER BROOK, Bozrah (T)

Intermittent sections from Gardner Lake to Fitchville Pond.

GILLETTE BROOK, Somers (BK)

Intermittent sections from Battle Street downstream to the Scantic River.

GREAT BROOK, Chester (T)

Intermittent sections along Wig Hill Road.

GREAT MEADOW BROOK, Voluntown (T)

Access in Pachaug State Forest.

GREEN FALLS RIVER, North Stonington-Voluntown (T) Intermittent sections from Green Falls Dam to Rhode Island.

GULF STREAM, Somers (T BK)

Intermittent sections from Gulf Road Marsh downstream to the Scantic River.

HALEYS BROOK, Groton (BK)

Intermittent sections along Route 184.

HALL MEADOW BROOK, Goshen-Torrington (T BK)

Along Route 272 from Winchester Road to the Hall Meadow Brook Reservoir Dam (John Minetto State Park).

HAMMONASSET RIVER, Clinton-Killingworth-Madison (T)

Intermittent sections from Route 80 to Route 1.

TROUT MANAGEMENT AREA

From Lake Hammonasset Dam to Chestnut Hill Road:

Season: Open year-round.

Trout: Catch and Release Only from September 1 to 6:00

am 3rd Saturday in April.

Trout: Daily creel limit-2, 9" minimum length from 6:00 am 3rd

Saturday in April to August 31.

SEA RUN TROUT STREAM

From Chestnut Hill Road to the breached dam located 300 feet upstream of River Road:

Season: Open from 6:00 am 3rd Saturday in April-last day February.

Trout: Daily creel limit-2, 9" Minimum length.

Downstream of the breached dam located 300 feet upstream of River Road:

Season: Open year-round.

Trout: Daily creel limit-2, 15" Minimum length.

HAWLEYS BROOK, Easton-Weston (BK)

WILD TROUT MANAGEMENT AREA (Class 1)

Within the Trout Brook Valley Property (publicly owned):

Season: Open year-round.

Methods: Barbless single-hook artificial lures and flies only.

Trout: Catch and Release Only.

HOCKANUM RIVER, Vernon-Ellington-Manchester-East

Hartford (**T**)

Intermittent sections from Rockville to the Connecticut River.

TROUT MANAGEMENT AREA

From I-84 in Vernon downstream to crossing under I-84 at Laurel Marsh on the Manchester/East Hartford line:

Season: Open year-round.

BASS MANAGEMENT AREA (Stanley Tract Area)

From Dawn Hill Road (Sharon) to Skiff Mountain Road in Kent (approximately 6 miles):

Area managed for smallmouth, statewide regulations apply. **BULL'S BRIDGE TROUT MANAGEMENT AREA / BASS**

MANAGEMENT AREA

From Bull's Bridge Impoundment Dam (Kent) to Gaylordsville Bridge (Route 7) in New Milford, includes Ten Mile River from NY border to confluence with Housatonic

Season: Open year-round except in areas within 100 feet of tributaries that are closed to all fishing from June 15 to August 31, as posted.

Trout: Catch and Release Only.

Large & Smallmouth bass: Catch and Release Only.

LOWER RIVER/TIDAL WATERS-no closed season:

Derby, Orange, Shelton, Milford, Stratford

Downstream from dam on Lake Housatonic (Derby).

Walk-in access at Derby Dam off Route 34 (Derby) and Canal Street (Shelton).

Trout: Daily creel limit-2, 15" minimum length.

HOWELLS POND BROOK, Hartland (T)

From Howell's Pond in Tunxis State Forest to Mill Street, approximately 1-1/2 miles above West Branch Reservoir.

HUNTS BROOK, Montville-Waterford (T)

Intermittent sections from Miller's Pond to Smith Cove.

INDIAN HOLE BROOK, Shelton (T)

Children's Area: From falls in Indian Well State Park downstream to railroad bridge.

Fishing restricted to children under 16 years of age. Season: Open 3rd Saturday in April-November 30.

INDIAN RIVER, Killingworth-Clinton (T)

Intermittent sections from Stevens Road downstream to Upper Millpond.

INDIANTOWN BROOK, Ledyard-Preston (T)

Intermittent sections from Route 2 to Poquetanuck Cove. Includes Shewville Brook, Gates and Hallville Ponds, and Poquetanuck Brook.

IRON STREAM, Guilford-Madison (T)

At Twin Bridge Road.

JEREMY RIVER. Hebron-Colchester (T)

Intermittent Sections from Route 66 to the Blackledge River. Trout: 9" minimum length - Downstream of Grayville Road to the Salmon River.

JOE CLARK BROOK, Ledyard (BK)

Intermittent sections from Church Hill Road downstream to Poquetanuck Cove.

JORDAN BROOK, Waterford (BK)

Intermittent sections along entire length.

JUDD BROOK, Colchester-Hebron

Trout: 9" minimum length downstream of Old Colchester Road to Jeremy River.

KENT FALLS BROOK, Kent (T BK BN)

Below base of falls.

TROUT PARK

Within Kent Falls State Park: Trout: Daily creel limit-2

KETTLETOWN BROOK, Southbury (T BK BN)

Through Kettletown State Park to Lake Zoar.

KITT BROOK, Canterbury (T)

Intermittent sections from Route 14 to the Quinebaug River.

KNOWLTON BROOK, Ashford (T)

Route 44 within Natchaug State Forest.

LAKE WARAMAUG BROOK, Warren (T)

Along Route 45 from Curtiss Road downstream to North Shore Road.

LATHROP BROOK. Plainfield (T)

Intermittent sections from Dow Road downstream to Mill Brook.

LATIMER BROOK, East Lyme-Waterford (T BK BN)

Intermittent sections along Route 161 from Silver Falls to Niantic River.

SEA RUN TROUT STREAM

Downstream of I-95 bridge:

Season: Open year-round.

Trout: Daily creel limit-2, 15" Minimum length.

LAUREL BROOK, Middletown (T)

From Anderson Road (Laurel Brook Road) through Wadsworth Falls State Park.

LEADMINE BROOK, Harwinton-Thomaston (T)

Intermittent sections from Route 118 in Harwinton through Roraback Wildlife Management Area to confluence with Naugatuck River (Thomaston Flood Control Area).

LITTLE RIVER, Canterbury-Hampton (T)

Intermittent sections from Route 97 to Paper Mill Pond.

LITTLE RIVER, Putnam (T)

Intermittent sections from Roseland Lake downstream to the Quinebaug River.

LITTLE RIVER, Oxford-Seymour (T BK BN)

Intermittent sections along Route 67 from 1 mile above Hogback Road to Hoadley's Pond (Seymour).

WILD TROUT MANAGEMENT AREA (Class 3)

From Towner Lane downstream to Park Road: Trout: 9" minimum length.

LONG HILL BROOK, Middletown (T)

Intermittent sections from Dooley Pond downstream to Route 155.

LONG MEADOW POND BROOK, Middlebury-Naugatuck (T) Intermittent sections from Long Meadow Pond through Guntown Road, along Rubber Avenue to 1/2 mile above the Naugatuck

River.

LONG SWAMP BROOK, Middlebury (T)

Within the DOT picnic area along Route 64 through Steinmann Park to Route 188.

LOWDEN BROOK, Voluntown (BK)

In Pachaug State Forest.

RIVERS & STREAMS

Statewide regulations for seasons, legal methods, and limits (pages 4-6) apply unless a site-specific regulation is listed for a water body.

MACEDONIA BROOK, Kent (T BK BN)

WILD TROUT MANAGEMENT AREA (Class 3)

Within Macedonia Brook State Park:

Trout: 9" minimum length.

WILD TROUT MANAGEMENT AREA (Class 1)

From confluence with Bog Hollow Brook to Route 341:

Season: Open year-round.
Trout: Catch and Release Only.

MAD RIVER, Norfolk-Winchester (T)

From Rugg Brook Road through Mad River Flood Control Impoundment to Route 263 crossing.

Trout: 9" minimum length downstream of Grantville Road.

MARSHEPAUG RIVER, Litchfield (T)

From Shearshop Road downstream through Milton to the East Branch of the Shepaug River.

MARY BROWN BROOK, Putnam (T)

Intermittent sections from East Putnam Road downstream to the Five Mile River.

MASHAMOQUET BROOK, Pomfret (T) + A

Intermittent sections from Taft Pond through Mashamoquet State Park to Quinebaug River.

MATTABESSET RIVER, Berlin-Middletown (NP CA LMB T)

Intermittant sections in Berlin from Brook Street to Lower Lane. LOWER RIVER/TIDAL WATERS-no closed season:

Downstream from Route 372 bridge to confluence with Connecticut River.

Trout: Daily creel limit-**2**, 15" minimum length.

MEADOW BROOK, Colchester

Trout: 9" minimum length downstream of Route 16.

MENUNKETESUCK BROOK. Killingworth (T)

Intermittent sections from Reservoir Road to Kelseytown Road.

MERRICK BROOK, Scotland (T BK BN)

Intermittent sections from Kemp Road to Route 14.

MERRICK BROOK WILD TROUT MANAGEMENT AREA (Class 1)

Within Talbot Wildlife Management Area (WMA), and also extending upstream of the WMA as posted.

Season: Open year-round.

Methods: Barbless single-hook artificial lures and flies only.

Trout: Catch and Release Only.

Trout: Daily creel limit-**2**, 9" minimum length from 6:00 am 3rd Saturday in April to August 31.

MINE BROOK, Portland (BK)

Along Gadpouch Road in Meshomasic State Forest.

MOOSUP RIVER, Plainfield-Sterling (T)

Intermittent sections from the Rhode Island line to the Quinebaug River.

TROUT MANAGEMENT AREA

From Route 14 bridge to confluence with Quinebaug River:

Season: Open year-round.

Methods: Fly fishing only in lower half of section, as posted.

Trout: Catch and Release Only.

MORGAN BROOK, Barkhamsted (T BN)

Intermittent sections accessible from East West Hill Road to the West Branch-Farmington River.

WILD TROUT MANAGEMENT AREA (Class 3)

Entire stream:

Trout: 9" minimum length.

MORRISSEY BROOK, New Milford-Sherman (T BK BN)
Intermittent sections from Route 39 to Cedar Hill Road, New Milford.

MOUNT HOPE RIVER. Ashford-Mansfield (T)

Intermittent sections from Route 44 to Mansfield Hollow Reservoir.

MOUNT MISERY BROOK, Voluntown (T)

Intermittent sections from Hell Hollow Road to the Pachaug River.

MUDDY BROOK, Woodstock (T)

Intermittent sections from Route 197 to Roseland Lake.

MUDDY RIVER, North Haven-Wallingford (T)

Intermittent sections from Northford Road below McKenzie Reservoir (Wallingford), along Tyler Mill Road, Route 150, to Spring Street, North Haven.

MYRON KINNEY BROOK, Voluntown (T BK)

Within Pachaug State Forest to Glasgo Pond.

MYSTIC RIVER, Groton-Stonington

LOWER RIVER/TIDAL WATERS-no closed season:

Downstream of confluence of Haleys Brook and Whitford Brook.

Trout: Daily creel limit-2, 15" minimum length.

NATCHAUG RIVER, Eastford-Chaplin-Mansfield-Windham (T) Intermittent sections along Route 198 to Shetucket River. TROPHY TROUT STREAM

Entire River in Eastford-Chaplin-Windham:

Trout: Daily creel limit-2.

TROUT PARK

Within Natchaug State Forest (Eastford):

Trout: Daily creel limit-2.

NAUGATUCK RIVER (EAST BRANCH), Torrington (T BK BN) WILD TROUT MANAGEMENT AREA (Class 3)

From Newfield Road downstream to the confluence with the West Branch Naugatuck:

Trout: 9" minimum length.

NAUGATUCK RIVER (MAINSTEM), Torrington-Litchfield-Harwinton-Thomaston-Watertown-Waterbury-Naugatuck-Beacon Falls-Seymour-Derby (**T**)

From the confluence of the East and West Branches in Torrington to the Thomaston Flood Control Dam. Intermittent sections from Thomaston to Waterbury. Platts Mill Road and Route 8 overpass area in Waterbury, through the Naugatuck State Forest to the Route 42 bridge (Pines Bridge Road) in Beacon Falls.

TROPHY TROUT STREAM

From the confluence of the East and West Branches to Route 118 (Harwinton-Litchfield) & from the Thomaston Dam to the Kinneytown Dam (Seymour):

Trout: Daily creel limit-2

Thermal refuges: Areas within 100 feet of the mouths of tributaries as posted by DEP are closed to all fishing from June 15 to August 31.

BROODSTOCK SALMON AREAS (see page 7 for details)
From Route 118 (Litchfield/Harwinton) to the Thomaston Dam & from Prospect Street (Naugatuck) downstream to Pines Bridge Road (Route 42 bridge, Beacon Falls):

Methods (all species): From October 1 through March 31, single fly or lure with a single free-swinging hook only. Additional weight may not be added to the line. Anglers are reminded that the season is closed from March 1 to 6:00 am on the 3rd Saturday in April for all species except broodstock Atlantic salmon (see Trout Management Area below for year-round catch-and-release fishing for trout).

NAUGATUCK RIVER TROUT MANAGEMENT AREA

Litchfield-Harwinton-Thomaston

From Route 118 (Litchfield/Harwinton) to the Thomaston Dam: **Season:** Open year-round except in areas within 100 feet of tributaries that are closed to all fishing from June 15 to August 31, as posted.

Methods (all species): From October 1 through March 31, single fly or lure with a single free-swinging hook only. Additional weight may not be added to the line.

Trout: Catch and Release Only.

LOWER RIVER/TIDAL WATERS-no closed season:

From Kinneytown Dam (Seymour) to confluence with Housatonic River (Derby).

Trout: Daily creel limit-2, 15" minimum length.

NAUGATUCK RIVER (WEST BRANCH), Torrington (T) Intermittent sections from Stillwater Pond to Route 4.

NECK RIVER, Madison (T)

Intermittent sections from Bradley Corners Road downstream to I-95.

NEGRO HILL BROOK, Burlington (BK BN)

SESSION WOODS WILD TROUT MANAGEMENT AREA (Class 3)

Upstream of Route 69 (through Sessions Woods Wildlife Management Area):

Trout: 9" minimum length.

NEPAUG RIVER, New Hartford (T BK BN)

Intermittent sections from Niles Road to the Route 202 bridge immediately upstream from Nepaug Reservoir.

NEW CITY BROOK, Stafford (T)

Intermittent sections from New City Pond to Staffordville Reservoir.

NIANTIC RIVER, East Lyme-Waterford

LOWER RIVER/TIDAL WATERS-no closed season:

Downstream of confluence with Latimer Brook.

Trout: Daily creel limit-2, 15" minimum length.

RIVERS & STREAMS

Statewide regulations for seasons, legal methods, and limits (pages 4-6) apply unless a site-specific regulation is listed for a water body.

NONEWAUG RIVER, Woodbury (T BK BN)

Intermittent sections from Old Town Farm Road to Route 47.

NORTHFIELD BROOK, Litchfield-Thomaston (T)

From Northfield Cutlery Pond to Northfield Flood Control Dam.

NORWALK RIVER (includes Factory and Millers Ponds),

Ridgefield-Redding-Wilton-Norwalk (T BN)

Intermittent sections from Haviland Road (Ridgefield) to Riverside Avenue (Norwalk).

WILD TROUT MANAGEMENT AREA (Class 3)

Entire stream in Wilton and Ridgefield upstream of Wolf Pit Road:

Trout: 9" minimum length.

OIL MILL BROOK, Waterford-East Lyme (BK BN)

SEA RUN TROUT STREAM

Downstream of I-95 bridge:

Trout: Daily creel limit-2, 15" minimum length.

OXOBOXO BROOK, Montville (T)

Intermittent sections from Oxoboxo Lake downstream to Route 32.

PACHAUG RIVER, Griswold-Voluntown (T)

Intermittent sections from Beach Pond to the Quinebaug River. The demarcation line between the Pachaug River and Beachdale Pond is the west side of the bridge on Route 49.

PARMALEE BROOK, Durham (T)

Intermittent sections from Route 17 downstream to the Coginchaug River.

PATTACONK BROOK, Chester (T)

Intermittent sections along Route 148.

PEASE BROOK, Lebanon-Franklin (T BN BK)

WILD TROUT MANAGEMENT AREA (Class 3)

In Pease Brook Wildlife Management Area:

Trout: 9" minimum length.

PENDLETON HILL BROOK, North Stonington (T)

Intermittent sections along Route 49 downstream to the Green Falls River.

PEQUABUCK RIVER, Plymouth-Bristol-Plainville (T BN)

Through Rockwell Municipal Park in Bristol downstream to Route 177 in Plainville.

Trout: 9" Minimum length downstream of Canal Street in Plymouth.

TROUT MANAGEMENT AREA

From King Street (Routes 229 and 72) in Bristol to Route 177 in Plainville. Includes the section of Coppermine Brook from the confluence with the Pequabuck River to Artisan Street. Season: Open year-round.

Trout: Catch and Release Only.

PEQUONNOCK RIVER (includes Tungsten Mine Park Pond). Bridgeport-Trumbull (T)

Intermittent sections from West Pequonnock Reservoir (Monroe) along Route 25, then through Old Mine Municipal Park, Trumbull Basin State Park, Twin Brooks Municipal Park, Unity Municipal Park, and Beardsley State Park in Bridgeport.

TROPHY TROUT STREAM

In Trumbull, from the Whitney Avenue bridge through Trumbull Basin State Park to the Daniels Farm Road bridge:

Trout: Daily creel limit-2

PINE BROOK, East Hampton-Haddam (T)

Intermittent sections from Route 16 to Salmon River. Trout: 9" Minimum length downstream of Sexton Road. PLUM GULLEY BROOK (Johnson Brook), South Windsor (T) At Clark Street.

PODUNK RIVER, South Windsor (T)

Intermittent sections from Ellington Road to Route 5.

POMPERAUG RIVER, Southbury-Woodbury (T)

Intermittent sections from the junction of the Nonewaug and Weekeepeemee rivers near Route 47 in Woodbury to 1/4 mile below Route 172 in Southbury.

TROPHY TROUT STREAM

Entire river in Woodbury and Southbury (from near Route 47 to the confluence with Lake Zoar):

Trout: Daily creel limit-2.

POND BROOK, Newtown (T)

Intermittent sections from Routes 6 and 25 to Hanover Road just above Lake Lillinonah.

PONSET BROOK, Haddam (T)

Intermittent sections from Route 9 downstream to Higganum Reservoir.

POOTATUCK RIVER. Newtown (T BK BN)

Intermittent sections from Route 25 to Turkey Hill Road, and from Sandy Hook through Rocky Glenn State Park to Walnut Tree Hill Road, just above Lake Zoar.

DEEP BROOK WILD TROUT MANAGEMENT AREA (Class 1)

Approximately 1 mile (as posted) of Pootatuck River, 1/2 mile upstream and 1/2 mile downstream of confluence with Deep Brook.

Season: Open year-round.

Methods: Barbless single-hook artificial lures and flies only.

Trout: Catch and Release Only.

POQUETANUCK BROOK, Preston (T)

Intermittent sections from Hallville Pond to Poquetanuck Cove.

QUANDUCK BROOK, Killingly-Sterling (T BN)

Intermittent sections from Rhode Island to Moosup River.

QUINEBAUG RIVER, Thompson to Norwich (T SMB S CB WP) Intermittent sections from the Massachusetts line to the Shetucket River.

Children's Area: Within Putnam Town Park. Fishing restricted to children under 16.

Season: Open 3rd Saturday in April-November 30.

QUINNIPIAC RIVER, Southington-Cheshire-Meriden-Wallingford (T BN)

From 1/4 mile below Cheshire Road, Cheshire to Route 150, Wallingford.

WILD TROUT MANAGEMENT AREA (Class 1)

Entire river in Southington, and in Cheshire upstream from Cheshire Street.

Season: Open year-round.

Methods: Barbless single-hook artificial lures and flies only.

Trout: Catch and Release Only.

LOWER RIVER/TIDAL WATERS-no closed season:

North Haven-New Haven

Downstream from Route 5 bridge in North Haven to junction with New Haven Harbor.

Trout: Daily creel limit-2, 15" Minimum length.

RACE BROOK, Woodbridge-Orange (T)

From Route 313 (Woodbridge) to Lambert Road (Orange).

RAYMOND BROOK, Hebron (T)

Intermittent sections from Route 207 to Jeremy River.

Trout: 9" Minimum length downstream of Old Colchester Road.

RESERVOIR BROOK, Portland (T)

Intermittent sections from Portland Reservoir to Connecticut River.

RIPPOWAM RIVER, Stamford (T)

Intermittent sections from Interlaken Road just below North Stamford Reservoir to Cold Spring Road near downtown Stamford.

ROARING BROOK, Glastonbury (T BK BN)

Intermittent sections from Route 94 to Connecticut River.

WILD TROUT MANAGEMENT AREA (Class 3)

From Route 94 to Connecticut River:

Trout: 9" minimum length.

ROARING BROOK, Haddam (BK)

Intermittent sections along Ruth Hill Road.

ROARING BROOK, Lyme (T)

Along Route 82.

ROARING BROOK, Stafford-Willington (T BN)

Intermittent sections through Nipmuck State Forest to the Willimantic River.

WILD TROUT MANAGEMENT AREA (Class 3)

From Route 190 (Stafford) to Willimantic River (Willington): **Trout**: 9" minimum length.

SAFSTROM BROOK, East Hampton (T)

Intermittent sections along Wopowog Road in Salmon River State Forest.

Trout: 9" Minimum length downstream of Tartia Road.

SALMON BROOK, Glastonbury (BK BN)

Intermittent sections from headwaters to Keeney Cove.

WILD TROUT MANAGEMENT AREA (Class 2)

Entire brook in Glastonbury downstream of Addison Pond: **Trout**: Daily creel limit-**2**, 12" minimum length.

SALMON BROOK (EAST BRANCH) AND SALMON BROOK (MAINSTEM), Granby-East Granby (T BK BN)

From East Street below the gorge in North Granby, along Route 189, crossing Routes 202 and 20, and through Granbrook Town Park to the Farmington River.

Trout: 9" minimum length-entire river from Massachusetts border downstream to the Farmington River.

WILD TROUT MANAGEMENT AREA (Class 3)

From Route 20 (Granby) to confluence with Farmington River (East Granby).

Trout: 9" minimum length.

SALMON BROOK (WEST BRANCH), Hartland-Granby (T BK BN) From the Granby-Hartland line, along Route 20 through Simsbury Road. Then Salmon Brook Municipal Park and Route 10, below McCleans Game Refuge.

Trout: 9" minimum length downstream of Route 179 (Hartland) to confluence with East Branch.

Rainbow Trout

SALMON RIVER, Colchester-East Haddam-East Hampton-

Haddam (T) 👆 🕂

Intermittent sections from the junction of the Blackledge and Jeremy Rivers to the Leesville Dam.

Trout: 9" Minimum length-entire river downstream to the Route 151 Bridge.

TROPHY TROUT STREAM

Entire river in Colchester, East Haddam and East Hampton:

Trout: Daily creel limit-2.

Except in:

TROUT MANAGEMENT AREA

From confluence of Blackledge and Jeremy Rivers downstream to Route 16 bridge:

Season: Open year-round.

Methods: Fly fishing only in midsection of area, as posted.

Trout: Catch and Release Only from September 1 to

6:00 am on the 3rd Saturday in April.

Trout: Daily creel limit-**2**, 9" minimum length from 6:00 am 3rd Saturday in April to August 31.

LOWER RIVER/TIDAL WATERS-no closed season:

Downstream of Route 151 Bridge to junction with Connecticut River.

Trout: Daily creel limit-2, 15" minimum length.

SANDY BROOK, Barkhamsted-Colebrook-Norfolk (T)

Intermittent sections beginning 1/4 mile from the Massachusetts line, along Route 183, through Algonquin State Forest to the confluence with the Still River above Riverton.

Trout: 9" minimum length- entire stream downstream from Massachusetts state line.

SAUGATUCK RIVER (includes Cobbs Mill Pond), Danbury-Redding-Weston-Westport (**T**)

Intermittent sections from Route 7 in Danbury through West Redding along Route 53 to the Mark Twain Library Dam (1 mile above Saugatuck Reservoir). Then intermittent sections from 100 feet below the Saugatuck Reservoir Dam tailrace (as posted) through Lyons Plain to Dorr's Mill Dam and ending at the Merritt Parkway.

WILLIAM "DOC" SKERLICK TROUT MANAGEMENT AREA

In Westport from Dorr's Mill Dam to the Merritt Parkway:

Methods: Fly fishing only. **Season:** Open year-round.

Trout: Catch and Release Only from September 1 to 6:00

am on the 3rd Saturday in April.

Trout: Daily creel limit-2, 9" minimum length from 6:00 am on 3rd Saturday in April to August 31.

SEA RUN TROUT STREAM

Tidal area downstream of Wood Dam (Westport):

Season: Open year-round effective April 21, 2006.

Trout: Daily creel limit-2, 15" minimum length.

SAUGATUCK RIVER (WEST BRANCH), Weston-Westport (T) Intermittent sections from intersection of Routes 53 and 57 (north of Weston Center) to the Saugatuck River.

SAWMILL BROOK, Sherman (T BK BN)

From the intersection of Routes 39 and 37 in Sherman Center to Candlewood Lake.

SCANTIC RIVER, East Windsor-Enfield-Somers (**T**)
Intermittent sections from Massachusetts state line to
Connecticut River.

SETH WILLIAMS BROOK, Ledyard (BK)

Intermittent sections from headwaters to Whitfords Brook.

SHEPAUG RIVER, Roxbury (T)

Intermittent sections along Route 67 from Hodge Park downstream to the Route 67 bridge.

SHETUCKET RIVER, Windham to Norwich

(T SMB NP S)

Intermittent sections from Willimantic to Greenville Dam. TROPHY TROUT STREAM

Entire river in Windham, Scotland, Sprague, and Norwich: Trout: Daily creel limit-2.

Thermal refuges: Areas within 100 feet of the mouths of tributaries as posted by DEP are closed to all fishing from June 15 to August 31.

BROODSTOCK SALMON AREA (see page 7 for details) From the Scotland Dam (Scotland) downstream to the Occum Dam (Norwich):

Methods (all species): From October 1 through March 31, single fly or lure with a single free-swinging hook only. Additional weight may not be added to the line. Anglers are reminded that the season is closed from March 1 to 6:00 am on the 3rd Saturday in April for all species except broodstock Atlantic salmon.

SHEWVILLE BROOK, Preston (T)

Intermittent sections from Indiantown Brook to Hallville Pond.

SHUNOCK RIVER, North Stonington (T BK BN)

Intermittent sections from Hewitts Fly Pond to the Pawcatuck River.

WILD TROUT MANAGEMENT AREA (Class 3)

Entire stream in North Stonington:

Trout: 9" Minimum length.

SILVERMINE RIVER (includes Blanchard and Silvermine Ponds), New Canaan-Norwalk (T)

From Route 106 in New Canaan to the Merritt Parkway.

SKUNGAMAUG RIVER, Coventry-Tolland (T) Intermittent sections from Route 74 to Hop River.

SNAKE MEADOW BROOK, Plainfield-Sterling (T) Intermittent sections from its source to the Moosup River.

SPRAIN BROOK, Woodbury (T BN)

Intermittent sections from Potash Hill Road, Route 47 to Paper Mill Road.

STILL RIVER, Winsted-Colebrook-Barkhamsted (T) Intermittent sections in Winsted and from Sandy Brook to Farmington River.

Trout: 9" Minimum length downstream of confluence with the Mad River..

STILL RIVER, Eastford-Woodstock (T)

Intermittent sections from Route 171 to the Natchaug River.

STILL RIVER, Danbury (T)

From Eagle Street downstream through the town linear park.

STONY BROOK, Montville (T BK BN)

WILD TROUT MANAGEMENT AREA (Class 3)

Entire stream in Montville: Trout: 9" Minimum length. STONY BROOK, Suffield (T)

Intermittent sections from South Grand Street to Guild Pond.

STRATTON BROOK, Simsbury (T)

Stratton Brook State Park through Massacoe State Forest. **TROUT PARK**

Within Stratton Brook State Park:

Trout: Daily creel limit-2.

SUGAR BROOK, Plainfield (BK)

Within Sugar Brook Wildlife Management Area.

SUMNER BROOK. Middletown (T)

Intermittent sections from Millbrook Road downstream to Route

SUSQUETONSCUT BROOK, Bozrah-Lebanon (T)

Intermittent sections from Route 207 to the Yantic River.

TANKERHOOSEN RIVER, Vernon (T BK BN)

Intermittent sections from Valley Falls Road to Hockanum River. **BELDING WILD TROUT MANAGEMENT AREA (Class 1)**

The river and its tributaries (as posted) within Belding WMA: Season: Open year-round.

Methods: Barbless single-hook artificial lures and flies only. Trout: Catch and Release Only.

TAYLOR BROOK, Woodstock (T)

Intermittent sections from County Road downstream to Mill Brook.

TENMILE RIVER, Cheshire (T)

From Route 70 (Cheshire) to Route 322 in Milldale.

TENMILE RIVER, Lebanon-Columbia (T)

Intermittent sections from Route 87 to the Willimantic River.

TENMILE RIVER, Sherman-Kent (T SMB)

BULL'S BRIDGE TROUT MANAGEMENT AREA / BASS MANAGEMENT AREA

From the New York line to confluence with the Housatonic River:

Season: Open year-round.

Trout: Catch and Release Only.

Large & smallmouth bass: Catch and Release Only.

THAMES RIVER, Norwich to New London (WP YP)

LOWER RIVER/TIDAL WATERS-no closed season:

Downstream from Greenville Dam. includes coves.

Trout: Daily creel limit-2, 15" minimum length.

WACHOCASTINOOK (Riga) BROOK, Salisbury (BK BN) **WILD TROUT MANAGEMENT AREA (Class 1)**

Downstream of South Pond within Mt. Riga Corporation property as posted:

Season: Open year-round.

Methods: Barbless single-hook artificial lures and flies only.

Trout: Catch and Release Only.

WAPPOQUIA BROOK (Quaker Meeting House Brook),

Pomfret (BK)

Intermittent sections from Route 97 downstream to Mashomoquet Brook.

WEEKEEPEEMEE BROOK, Woodbury (T BK BN)

Intermittent sections from Route 132, Peter Road to the confluence with the Noneway River.

WELLS BROOK, Union (T)

Intermittent sections from Route 171 downstream to Mashapaug Lake.

WEPAWAUG RIVER (includes Clarktown Pond), Orange-Milford (T)

Intermittent sections from Route 34, along Grassy Hill Road to 1/2 mile above I-95.

Children's Area: From old New Haven-Derby RR upstream approximately 2 miles. Fishing restricted to children under 16. **Season:** Open 3rd Saturday in April-November 30.

WEST RIVER, Guilford (T)

Intermittent sections from Quonnipaug Lake to Route 1.

WHETSTONE BROOK, Killingly (T)

Intermittent sections from East Killingly downstream to the Fivemile River.

WHITFORD BROOK, Groton-Ledyard-Stonington (T)
Intermittent sections from Long Pond to the Mystic River.

SEA RUN TROUT STREAM

Downstream of Route 184 bridge:

Season: Open year-round.

Trout: Daily creel limit-2, 15" minimum length.

WHITING RIVER, North Canaan (T)

Intermittent sections from the Massachusetts state line to confluence with Blackberry River.

WILLIMANTIC RIVER, Stafford to Windham (T)

Intermittent sections from Stafford Springs to confluence with Natchaug River.

COLE WILDE TROUT MANAGEMENT AREA

In Tolland and Willington from mouth of Roaring Brook downstream to Route 74 bridge:

Season: Open year-round.

Methods: Fly fishing only.

Trout: Catch and Release Only.

WILLOW BROOK, Cheshire (T BK BN)

Along the bike path beginning at Lock 12 at Route 42 downstream to Mount Sanford Road.

WOOD RIVER, Voluntown (T)

Intermittent sections from Porter Pond to Hazard Pond.

WYASSUP BROOK, North Stonington (BK)

Intermittent sections from Wyassup Lake downstream to Spalding Pond.

YANTIC RIVER, Bozrah-Norwich (T)

Intermittent sections from Camp Moween Road to Thames

TROUT MANAGEMENT AREA

From Barstow Road (Lebanon) downstream to bridge crossing at intersection of Fitchville and Schwartz Roads:

Methods: Fly fishing only in sections at the upper and lower boundaries of TMA, as posted.

Season: Open year-round.

Trout: Catch and Release Only from September 1 to 6:00

am on the 3rd Saturday in April.

Trout: Daily creel limit-2, 9" minimum length from 6:00 am on

the 3rd Saturday in April-August 31.

DIDYMO - A THREAT TO TROUT STREAMS

Your help is needed to prevent the spread of didymo (Didymosphenia geminata). This highly invasive freshwater alga (also called "rock snot") has just recently been found in a several highly popular trout streams spread across the Northeast. Didymo has the potential to alter food webs and degrade habitat in many Connecticut trout streams.

Anglers are considered an important vector responsible for the recent spread of didymo. The microscopic cells can cling to fishing gear, waders (felt soles can be especially problematic), boots and boats, and remain viable for months under even slightly moist conditions.

What you can do to prevent the spread of didymo:

- CHECK: Before leaving a river, stream or lake, remove all obvious clumps of algae and plant material from fishing gear, waders, clothing & footwear, canoes & kayaks, and anything else that has been in the water and look for hidden clumps. Leave them at the site. If you find any later; treat and dispose of all material in the trash.
- ✓ CLEAN: Soak/spray & scrub boats and all other "hard" items for at least one minute in either very hot (140°F) water, a 2% bleach solution, or a 5% dishwashing detergent solution. Absorbant materials such as clothes and felt soles on waders should be soaked for at least 40 minutes in very hot water (140°F), or 30 minutes in hot water (115°F) with 5% dishwashing detergent. Freezing solid will also kill didymo.
- Dry: Drying will also kill didymo, but items must remain completely dry (inside and out) for at least 48 hours.

Didymo is typically found in shallow streams with rocky substrate. Thought to be native to northern regions of Europe, Asia and North America, didymo originally was found only in cold, clear, low-nutrient waters.

Didymo's geographical and ecological ranges have been expanding, and now also include warmer and more nutrient-rich waters. The occurrence and intensity of blooms are also increasing. It is currently unclear why.

The microscopic didymo cell produces a stalk to attach to the substrate. During blooms, didymo can produce large amounts of this stalk material, forming thick mats of cottony material that feels like wet wool on the bottoms of rivers and streams.

These mats can potentially smother aquatic plants, mollusks, destroy invertebrate and fish habitat, and impact existing food webs.

For more information on Didymo

FAMILY FISHING-NO CHILD LEFT INSIDE!

The **CONNECTICUT AQUATIC RESOURCES EDUCATION (CARE)** Program will introduce you and your family to the fun of fishing. Even ice fishing! Expert instruction, hands-on activities and a fishing trip will lead to wonderful time spent outside with your family or friends. You can even borrow our tackle to catch a fish!

JOIN US IN 2008 FOR:

ICE FISHING CLASSES

January classes designed to introduce you to the social, winter sport of ice fishing. This is an excellent project for youth groups, scouts or family organizations. Learn how to catch a big bass, pickerel or jumbo perch on a tip-up before attending the Derby (see below).

FAMILY ICE FISHING DERBY - January 26, 2008

Add some adventure to your winter by trying ice fishing! Spend some quality time outdoors with family and friends. Kids get a prize just for attending.

NEW INSTRUCTOR TRAINING - February 2, 2008

CARE needs volunteers from across the state to share their love of the outdoors and fishing with others. We'll provide you with quality training and the equipment you'll need. If you're a self-starter and are interested in enriching someone's life with the sport of fishing, join the over 550 volunteers already certified. Call **860-663-1656** (24 hr/day) for details.

FAMILY FISHING CLASSES

Certified **CARE** Instructors provide a science-based package of environmental, ecological, and angling information. The curriculum even helps teachers meet state science standards! Learn how to cast, identify your catch, select the right bait and tie a strong knot. Learning about habitat and fish ecology will make you better at finding fish! Multiple-meeting classes include fishing tackle and expert guidance. Courses conclude with a trip to a fishing hot spot.

CITY FISHING CLASSES

Certified CARE Instructors provide students in summer camps with an interactive learning experience featuring a chance to go fishing! If you run a weekday youth camp, call 860-663-1656 (24 hr/day) for details on these July and August classes.

2007 CARE 15-year Instructors

CARE Instructors (clockwise from top left) **Craig Mergins** (Hartford), **Dave Mordavsky** (Manchester), **Jim Toner** (Bolton) and **Dave Koplar** (Torrington) reached the milestone of 15 years of volunteer service to the CARE program. These Instructors have combined to teach 7,000 people about water, fish and fishing in Connecticut!

For more information or a **CARE** Class Schedule, call **860-424-FISH** or visit our website at: **www.ct.gov/dep** and enter "CARE" in the search box.

QUINEBAUG HATCHERY FISHING PONDS

FISHING OPPORTUNITIES PROVIDED:

- One 2 acre flyfishing and one 2 acre lure fishing pond at Quinebaug Valley Hatchery. Ponds are rectangular and surrounded by mown grassy slopes.
- Stocked with brook, brown and rainbow trout.
- Open: Weekends & Holidays from March 1 to May 18, 2008.
- Fee: \$2.00 per person for three hours
- PERIOD I: March 1–April 13 for INDIVIDUAL reservations – starting January 7th, 2008, call (860) 564-7542.

Daily Time Slots: 8:00 am -11:00 am, 11:30 am - 2:30 pm and 3:00 pm- 6:00 pm.

- PERIOD II: April 19—May 18 for GROUP reservations

 starting March 3rd, 2008, call (860) 424-3474.

 Groups of over 15 may reserve an entire pond.
 Daily Time Slots: 6:30 am- 9:30 am, 10:00 am 1:00
- pm, 1:30 pm- 4:30 pm, and 5:00 pm- 8:00 pm.Walk-ins may fish during both periods if ponds are not fully reserved.

Key Fishing Rules:

- Fishing license required for anglers 16 years of age and over.
- Each angler 15 years of age or under must be accompanied by a licensed adult 21 years of age.
- All licenses must be turned in to attendant before fishing.
- One fish limit per person.
- · Catch and Release is permitted until one fish is either killed or kept.
- Only anglers are allowed in the fishing area. (No Spectators)
- · Single barbless hooks are required.
- One hook allowed per angler.
- · Fishing with any kind of bait or using bait to attract fish is prohibited.

DEMARCATION BETWEEN MARINE AND INLAND DISTRICT

A sport fishing license is not required downstream of locations listed below or in areas designated as being entirely in the Marine District.

Unless indicated below, the demarcation line is the first bridge upstream from the river mouth

Alewife Cove: New London-Waterford.

Entirely in Marine District. Beebe Cove: Groton. Entirely in Marine District. Blackhall River: Old Lyme.

Route 156.

Branford River: Branford.

Montowese Street.

Bride Brook: East Lyme. First railroad crossing. Byram River: Greenwich. First railroad crossing.

Clinton River: (Indian River)

Clinton, Route 1.

Connecticut River: I-95 bridge. Old Lyme-Old Saybrook.

Duck River: Old Lyme. Entirely in Marine District. East Creek: Guilford.

The tide gates at Guilford dock.

Housatonic River: Milford-Stratford.

Merritt Parkway.

Indian Harbor: Greenwich. First railroad crossing.

Indian River: Milford. Route 122.

Jordan Cove: Waterford. First railroad crossing. Lieutenant River: Old Lyme.

Route 156.

Menunketesuck River: Westbrook.

500 ft. North of Route 1. Mianus River: Greenwich. Dam north of Boston Post Road.

Mill River: Fairfield. Dam at Harbor Road. Mill River: New Haven. Tide gates at State Street. Mumford Cove: Groton. Entirely in Marine District.

Mystic River: Stonington-Groton.

500 feet north of Route 1.

Niantic River: East Lyme-Waterford.

Golden Spur Bridge, Route 1. Norwalk River: Norwalk.

Wall Street

Oyster River: Milford.

Route 122.

Palmer's Cove: Groton. Entirely in Marine District. Patchogue River: Westbrook.

Route 1.

Pawcatuck River: Stonington. 500 ft. north of Route 1.

Pequonnock River: Bridgeport. North Avenue (Route 1).

Poquonnock River: Groton. 500 feet north of Route 1. Pequot-Sepos Cove: Stonington. 500 feet north of Route 1. Quiambaug Cove: Stonington. 500 feet north of Route 1.

Quinnipiac River: New Haven. Route 17.

Sasco Brook: Westport.

Buckley's Mill Dam, above Route 1.

Saugatuck River: Westport.

Kings Highway.

Shaws Cove: New London. Entirely in Marine District.

Stonington Harbor, Lambert Cove and Quanaduck Cove: Stonington.

500 feet north of Route 1.

Thames River: Groton-New London. 500 ft. North of Rte. 1, I-95 bridge.

Tokeneke Brook: Darien.

Old Farm Road.

Wequetequock River: Stonington.

500 feet north of Route 1. West River: Guilford.

Route 146.

West River: West Haven.

Tide gates at Orange Ave. (Rte. 1).

For a complete listing, see Regulations of Connecticut State Agencies, section 26-108-1.

CONNECTICUT STATE WATERS BOUNDARY

Fishing Across State Boundary Lines: Anglers are reminded that several states have areas of jurisdiction in Long Island Sound and fishing regulations can vary between these states. When on the waters or shores of each state, anglers must comply with all regulations of that state, regardless of the port they intend to return to. To be legal when crossing state boundary lines, anglers must abide by the most restrictive of the states' regulations for each species.

CT DEP MARINE ANGLER SURVEY

The Marine Recreational Fishery Statistics Survey (MRFSS) is a nation-wide program implemented in 1979 by the National Marine Fisheries Service (NMFS) to establish a reliable database for estimating the impact of recreational fishing on saltwater fish resources. This survey is conducted in all U.S. coastal states. The information is used by Fishery Management Councils, the Atlantic States Marine Fisheries Commission (ASMFC), as well as Federal and State resource agencies to create fishery management plans and to evaluate the impact of fishing regulations.

Estimates generated from the MRFSS include: total number of fish caught, released and harvested; the weight of the harvest; total number of angler trips; and number of marine recreational anglers. In Connecticut, the Marine Fisheries Division conducts this fishing survey. Creel agents conducting the survey will ask you questions including: where you were fishing; how long you were fishing; what species you were fishing for; how many did you catch and release; can we measure and weigh your kept fish; what town do you live in; how often do you fish, your name and phone number.

Thanks to the cooperation of anglers, the MRFSS encompasses over 25 years of fishing information and represents the most scientifically credible and consistent picture of marine recreational catch, effort and participation in the world. We greatly appreciate your time and effort.

DID YOU KNOW?

Over 380,000 Marine Anglers Fished Long Island Sound in 2006.

Those Marine Anglers made over 1.4 million Fishing Trips in Long Island Sound.

In 2006, Marine Anglers caught 7 million Fish of which 1.4 million were Harvested.

Anglers Harvested 500,000 Bluefish; 525,000 Scup; 7,700 Winter Flounder;

106,000 Summer Flounder; 172,000 Tautog and 77,000 Striped Bass.

IMPORTANT DEFINITIONS OF FISHING TERMS SALTWATER ANGLERS PLEASE NOTE:

Closed Season (Saltwater): The period of time during which no person shall take, possess or land a particular species taken by sportfishing methods, regardless of where taken. Any species taken to the contrary must be returned immediately, without avoidable injury, to the waters from which it was taken.

Note: Catch & Release Fishing for a species during a closed recreational fishing season is prohibited.

Note: Anglers cannot be in possession of fish legally taken in another state when on the waters or shores of Connecticut during a closed season for that species in Connecticut.

Daily Creel Limit: The number of fish of a species or species group that can be retained by an individual angler during the period from 12:01am to midnight. Any species taken to the contrary must be returned immediately, without avoidable injury, to the waters from which it was taken.

Note: "Culling" or "High-Grading" means discarding or returning a previously retained fish to the water in order to retain a more desirable fish. Any fish placed on a stringer, in a container, cooler, live well or similar device, or otherwise not immediately released to the water shall count against the daily creel limit. "Culling" or "High-Grading" is prohibited in the Marine District!

MARINE VOLUNTEER ANGLER SURVEY PROGRAM

The Marine Fisheries Division is seeking marine recreational anglers who will volunteer to participate in the Connecticut Volunteer Angler Survey (VAS) Program. The VAS Program is designed to collect fishing trip and catch information from avid marine recreational (hook and line) anglers who volunteer to record their angling activities via a logbook. VAS anglers contribute valuable fisheries-specific information concerning striped bass, fluke, bluefish, scup, tautog and other important finfish species used in monitoring and assessing fish populations inhabiting marine waters.

The <u>survey logbook is easy to fill out</u>. Each participating angler is assigned a personal number code for confidentiality and recording instructions are provided on the inside cover of the logbook. Upon completion, simply tape the pre-postage paid logbook shut and drop it in the mail. Anglers that send in logbooks are rewarded with a **VAS fishing cooler** and updated results of the program. After all the logbooks are computer entered and error checked, the logbooks are returned to each participant for their own records.

Interested in participating in the survey?

Please contact: Rod MacLeod at 860.434.6043
CT Department of Environmental Protection

Marine Fisheries Office, P.O. Box 719, Old Lyme, CT 06371

Email: rod.macleod@po.state.ct.us

VOLUNTEER ANGLER SURVEY

A total of 68 Anglers Participated in the VAS Program in 2006.

VAS Anglers caught 1,645 SCUP with an Average Length of 10", releasing 68%.

2,451 FLUKE with an Average Length of 16.5", releasing 80%.

730 TAUTOG with an Average Length of 15.5", releasing 43%.

2,643 BLUEFISH with an Average Length of 25", releasing 68%.

4,631 STRIPED BASS with an Average Length of 18.5", releasing 94%.

TIPS FOR BETTER CATCH AND RELEASE FISHING

Artificial Lures (swimming plugs, surface poppers, jigs, etc.) are often rigged with multiple treble hooks. One disadvantage of these lures is that a fish struggling to escape capture will often hook itself with the remaining treble hooks, leading to additional injury. Anglers should try to use lures with a <u>single hook</u> if possible, or replace treble hooks with steel hooks (<u>not stainless</u>), or reduce the number of treble hooks on the lure.

Bait Fishing is a popular technique, however the baited hook is often swallowed by the fish so that the hook is deeply imbedded in the stomach ("gut"). To reduce "gut hooking" a fish, angler's should set the hook immediately before the bait can be completely swallowed, or by using a "circle" hook. When a fish is "gut hooked" the best solution is to cut the line as close to the hook eye as possible. This helps to prevent severe damage to the fish's internal organs, which can occur while trying to remove a hook. If the hook is not stainless steel, it will eventually corrode due to the fish's stomach acids used in digestion.

An Erect Dorsal Fin, Is a Sign of a Revived Fish.

Fishing Tools used in hook removal can be extremely useful. Tools including needle nose pliers, hemostats, hook degorgers, nail clippers and wire cutting pliers can be very helpful in reducing hook removal time.

Handling Methods depend on fishing technique used, how the fish is hooked, and size of the fish. Ideally, the fish should not be removed from the water. If fishing from a boat, try to prevent the fish from banging against the side or thrashing around the deck. Improper handling can cause internal injuries, skin abrasions, scale loss, or removal of the protective slime layer that prevents infection. When handling a fish make sure that your hands are wet to reduce slime loss.

To Release the Fish, grasp the tail firmly and place the fish back in the water and slowly move the fish back and forth. This motion will cause water to flow over the gills, restoring oxygen to the blood stream. Recovery time will vary according to size and health of the fish. As a general rule, the longer the fish fights and the higher the water and air temperature, the longer it will take the fish to recover. Please respect the resource.

MARINE RECREATIONAL FISHING REGULATIONS

SPECIES, MINIMUM SIZES, DAILY LIMITS, AND FISHING SEASONS - EFFECTIVE: 4/5/2008

Regulations for certain species have changed in 2008.

For legal purposes, the Regulations of Connecticut State Agencies must be consulted.

Visit www.ct.gov/dep/fishing or contact Marine Fisheries (860.434.6043) for current regulations.

STRIPED BASS

Minimum Size: 28 inches.

Daily Creel Limit: 2 fish per angler.

Open Season: Year Round.

Special Note: No spearing / gaffing in Connecticut waters; head and tail have to remain intact, and the fish must not

be rendered unidentifiable.

Scup (Porgy)

Minimum Size: 10-1/2 inches.

Daily Creel Limit: 10 fish per angler.

Open Season: May 24 - September 26.

Party/Charter:

Minimum Size: 11 inches.

Open Season: June 12 - October 15.

Daily Creel Limit:

10 fish per angler, June 12- August 31 and 45 fish per angler, September 1 - Oct. 15.

Regulations has changed in 2008!

SUMMER FLOUNDER (FLUKE)

Minimum Size: 19.5 inches.

Daily Creel Limit: 5 fish per angler.

Open Season: May 24. Sentember

Open Season: May 24 - September 1.
Closed Season: September 2 - May 23.

<u>Special Note</u>: On the water, fillets must meet minimum length or be accompanied by legal sized rack (carcass).

Open Season: Year Round.

TAUTOG (BLACKFISH)

Minimum Size: 14 inches.

Daily Creel Limit: 4 fish per angler.

Open Season: Jan. 1 - April 30 and Oct. 1 - Dec. 6.

Daily Creel Limit: 2 fish per angler. Open Season: July 1 - August 31.

Closed Season: May 1 - June 30, Sept. 1 - Sept. 30.

BLACK SEA BASS

Minimum Size: 12 inches.

Daily Creel Limit: 25 fish per angler.

Open Season: Year Round.

WINTER FLOUNDER

Minimum Size: 12 inches.

Daily Creel Limit: 10 fish per angler. Open Season: April 1 - May 30. Closed Season: May 31 - March 31.

MARINE RECREATIONAL FISHING REGULATIONS

SPECIES, MINIMUM SIZES, DAILY LIMITS, AND FISHING SEASONS - EFFECTIVE: 4/5/2008

Daily Creel Limit: 6 fish per angler.

ALEWIFE / BLUEBACK HERRING

THE TAKING OF ALEWIFE AND BLUEBACK HERRING IS PROHIBITED!

Minimum Size: 6 inches.

Daily Creel Limit: 50 fish per angler.

Open Season: Year Round.

Legal Methods: Angling, Snagging, and Eel Pot. -Use of Eel Pots, limited to 2 pots per person,

SEA-RUN TROUT (Brown, Brook, Rainbow)

Minimum Size: 15 inches.

Daily Creel Limit: 2 fish per angler, (all species in aggregate). Open Season: Year Round.

ATLANTIC COD

Minimum Size: 22 inches. Daily Creel Limit: 10 per angler

No Creel Limit on Party/Charter vessels.

Open Season: Year Round

See: www.nero.noaa.gov/nero/regs/ for updated federal regulations.

WHITE PERC

Minimum Size: 7 inches.

Daily Creel Limit: 30 fish per angler.

Open Season: Year Round.

HICKORY SHAD

Minimum Size: None.

Daily Creel Limit: 6 fish per angler, both species (American and hickory shad) in aggregate. Open Season: Year Round for both species. Special Note: In the Pawcatuck River, the open season for American Shad follows Rhode Island regulations and the daily limit is 1 shad.

AMERICAN SHAD (see above)

Minimum Size: 19 inches. Daily Creel Limit: None. Open Season: Year Round.

POLLOCK

Minimum Size: 19 inches. Daily Creel Limit: None. Open Season: Year Round.

Please continue to support and participate in Marine Fisheries Management!

MARINE RECREATIONAL FISHING

RECREATIONAL FISHING FOR BAIT SPECIES, BLUE CRAB AND LOBSTER

TAKING OF BAIT SPECIES- FOR PERSONAL USE **NOT FOR SALE** - NO LICENSE REQUIRED IN MARINE DISTRICT

Fishing Gear which may be used to catch bait species:

- -Cast Nets.
- -Minnow Traps- no larger than 20" long by 15" in diameter.
- -Umbrella Nets- not more than 4 ft. in length by 4 ft. in width.
- -Scoop or Scap Nets- no larger than 36" in diameter.
- -Seines- no longer than 30 feet in length
- -Up to two eel pots.
- -Hook & Line.
- -By Hand.

Legal Bait Species:

Menhaden (license required for gillnetting, see below). Atlantic Silverside

Striped Killifish Tidewater Silverside

Mummichogs Sea Herring (Atlantic Herring) Sand Lances (Sand Eels)

American Eel

Sea Lamprey Mullet

Bay Anchovy Sheepshead Minnow

Shrimp Species

Green, Fiddler, Asian Shore and Hermit Crabs

-Other Fish of Legal Length may be used, if taken by Hook & Line Only!

GILLNETTING MENHADEN - PERSONAL USE

NOT FOR SALE - LICENSE REQUIRED

Legal Menhaden Capture Methods:

PROHIBITED:

The taking of any species other than menhaden.

All gillnets must have a tag, provided with the license number. A minimum mesh size of 3" stretched.

Info: Call 860.434.6043, ask for the Personal Use Menhaden Gillnet License Guidelines.

Submit daily catch record at the end of the year to:

DEP Marine Fisheries Division P.O. Box 719

Old Lyme CT 06371

Species Including:

Mussels **Ovsters** Clams **Scallops**

Contact the town where you plan to harvest shellfish for permit information, or the Department of Agriculture. Aquaculture Division @ 203.874.0696. email: dept.agric@snet.net

Legal Lobster Capture Methods:

Ten pots or less - pot tags required Skin Divina **SCUBA** Diving Hand Capturing

No Closed Season.

Minimum Shell Length: 3-5/16" (eye socket to end of carapace).

PROHIBITED:

- -Use of spears or hooks. Possession of speared lobsters.
- -Possession of egg bearing females or female lobsters with a 1/8" or deeper V-shaped notch in the tail flipper.
- -Tending pots from one half hour past sunset to one half hour before sunrise.

REQUIRED:

- -Catch compartments (parlor) escape vents either one 1-15/16" by 5-3/4" rectangular or two 2-7/16" circular.
- -Maximum trap size is 22,950 cubic inches.

Info: Call 860.434.6043, ask for the Guidelines for Personal Use Lobster Fishing in Connecticut.

Lobster Gauges can be purchased at the Marine Fisheries Office or Licensing and Revenue @ 79 Elm Street, 1st Floor, Hartford, CT. 860.424.3105.

Please submit daily catch record at the end of the year to:

DEP Marine Fisheries Division P.O. Box 719 Old Lyme CT 06371

BLUE CRAB - FOR PERSONAL USE

NOT FOR SALE - NO LICENSE REQUIRED

Legal Blue Crab Capture Methods:

Scoop Net, Hand Line, Dip Net, Trot line, Star Crab Trap (or similar device) or

Circular Topless Trap - not exceeding 26" in diameter. Semi-Circular Cylindrical Trap - 12" or less in diameter.

Open Season: May 1 - November 30.

Minimum Shell Width:

Spike Tip to Spike Tip 5" hard shell crabs.

3-1/2" soft shell crabs.

PROHIBITED:

Possession of uncooked blue crab meat without the body shell attached. Possession of more than 2 claws per body. Possession of egg bearing females.

REQUIRED:

All devices must be attended at all times.

For additional information, refer to the Marine Fisheries Information Circular by visiting the www.ct.gov/dep/fishing or call the Marine Fisheries Division at: 860.434.6043

HOW MUCH DOES YOUR FISH WEIGH?

FISH CAN BE INJURED WHEN WEIGHED WITH PORTABLE SCALES. TO ESTIMATE THE WEIGHT OF YOUR FISH, SIMPLY TAKE A LENGTH AND GIRTH MEASUREMENT (IN INCHES), AND USE THE FOLLOWING FORMULAS. REMEMBER, THESE ARE ONLY ESTIMATES!

SPECIES OF FISH **FORMULA** STRIPED BASS Example: Length³ A 30 inch striped bass weighs approximately 12 pounds. 2,200 $(30"x\ 30"x\ 30")/2,200 = 12.3$ pounds WALLEYE YELLOW PERCH (Length x Length x Length) NORTHERN PIKE **CHAIN PICKEREL** (Length x Length x Length) AMERICAN & HICKORY SHAD Length² X Girth (Girth is the greatest 1,650 distance around the body) SUNFISH **SCUP** (Length x Length x Length) LARGE/SMALLMOUTH BASS-BLACK SEA BASS Length² X Girth (Girth is the greatest distance around the body) 1,200 Length X Girth² (Girth is the greatest distance around the body) **TROUT** 700 WEAKFISH BLUEFISH A=LENGTH **B=GIRTH** © Images Copyright Joseph Tomelleri

WHAT DOES FISHING MEAN TO YOU?

BOAT LAUNCHES ALONG THE COAST

Fees: There may be a fee per vehicle or combination of a tow vehicle & trailer for parking on...... Saturdays, Sundays and Holidays from April 1 - October 31, at launches marked with an asterisk (*).

Barn Island, Stonington*

Parking: 60 cars with trailers. Toilets: Chemical, seasonal.

Conditions: Large ramp with floating dock.

Use: Heavy use on weekends.

Access: I-95, Exit 91. South to N. Main Street to Rte. 1. Greenhaven Road to Palmer Neck Road. follow to end.

Bayberry Lane, Groton*

Parking: 30 cars with trailers. Toilets: Chemical, seasonal.

Conditions: Steep ramp, shallow at low tide.

Use: Heavy use on weekends.

Access: I-95, Exit 87. Shennecossett Road,

left onto Bayberry Lane.

Branford River, Branford*

Parking: 50 cars with trailers. Toilets: Chemical, seasonal.

Conditions: Steep ramp, shallow at low tide.

Use: Low use.

Access: I-95. Exit 53. Route 142 left onto Stannard Avenue to Goodsell Point Road.

Connecticut River. Old Savbrook*

Parking: 75 cars with trailers. Toilets: Chemical, year round.

Conditions: Large ramp with floating dock.

Use: Heavy use on weekends. Access: Exit 1 off Rte. 9 North. End of ramp turn right. Located under Baldwin Bridge, (I-95) off Ferry Road.

Dock Road, Waterford

Parking: 45 cars with trailers. Toilets: Chemical, seasonal.

Conditions: Ramp is steep and narrow. Launching may be difficult during strong

southwesterly winds.

Use: Moderate use on weekends.

Access: I-95, Exit 74. Route 213, south on Goshen Road, launch straight ahead.

Thames River (Kenneth E. Streeter Boat Launch), Groton

Parking: 25 cars with trailers. Toilets: Chemical, seasonal.

Conditions: Launching may be difficult during strong northwesterly winds.

Use: Moderate use on weekends.

Access: I-95 North, Exit 85, bear right onto Bridge Street, next right onto Fairview Avenue, launch on left.

Thames River, New London*

Parking: 50 cars with trailers. Toilets: Chemical, seasonal.

Conditions: Good launching conditions.

Use: Moderate use on weekends.

Access: I-95 North, Exit 84, left onto Williams Street. Turn east onto State Pier Road, launch at end, under I-95, Goldstar Bridge.

East River, Guilford/Madison

Parking: 25 cars with trailers. Toilets: Chemical, seasonal. **Conditions:** Paved ramp. Use: Moderate use on weekends.

Access: I-95, Exit 59. Located on east side of East River. Take Route 1 onto Neck Road and follow to end.

Four Mile River, South Lyme

Parking: 55 cars with trailers. Toilets: Chemical, seasonal.

Conditions: Shallow launching area, Low railroad bridge clearance.

Use: Low use.

Access: I-95, Exit 71. Route 156, east on Oakridge Drive, first right to launch area.

Great Island, Old Lyme*

Parking: 35 cars with trailers. Toilets: Chemical, seasonal.

Conditions: Shallow at low tide.

Use: Heavy use on weekends.

Access: I-95, Exit 70. Route 156, south to end of Smith Neck Road and Great Island Wildlife

Housatonic River, Milford/Devon*

Parking: 75 cars with trailers. Toilets: Chemical, seasonal.

Conditions: Launching may be difficult due to swift river currents at times of abnormal tides or

extreme flood conditions. Use: Heavy use on weekends.

Access: Located on east side of the Housatonic River under I-95 (Exit 34). Take Route 1 onto Naugatuck Avenue. Access about one mile

Lighthouse Point City Park, New Haven*

Parking: 60 cars with trailers. **Toilets:** Flush facilities in park.

Conditions: Launching may be difficult during

strong northwesterly winds. Use: Heavy use on weekends.

Access: I-95, Exit 51 going south. Go south on Townsend Avenue, right onto Lighthouse Road to park. * Operated by the City of New Haven.

Niantic River, Waterford*

Parking: 100 cars with trailers. Toilets: Chemical, year round.

Conditions: Large ramp with floating dock.

Use: Heavy use on weekends.

Access: I-95, Exit 74. 1/4 mile northeast of Route 156 bridge across Niantic River.

Saugatuck River, Westport*

Parking: 25 cars with trailers. Toilets: Chemical, seasonal.

Conditions: Shallow launching conditions

at low tide

Use: Heavy use on weekends. Access: I-95, Exit 17 east side of river. Route 136 to Compo Road, first right to launch.

SALTWATER FISHING - HOW TO CATCH FISH

SHORE FISHING IN COASTAL STATE PARKS

During regular hours, a vehicle parking fee is required to enter most of the state parks. Fees are collected from 8am-6pm on weekends and holidays, and 8am-6pm during the week except at state parks marked with an asterisk

(*) Parking Fees subject to change.

Night Fishing Rules: Anglers entering a park by vehicle must obtain a vehicle permit in order to park and fish. No vehicle will be admitted into the day-use area of the park from 6:30am - 8am. Individuals entering the park without a vehicle do not require a permit, but must possess fishing tackle (rod & reel, bait, light, etc.) and engage in fishing.

Bluff Point State Park, Groton

Fishing is allowed at Poquonock Cove and the beach at Bluff Point. 24hrs.

Fish to be caught: Winter flounder and snapper bluefish can be caught at Poquonock Cove. Bluefish, striped bass, hickory shad, summer flounder, little tunny and tautog can be caught from the beach.

Directions: I-95, Exit 88 to Route 117 south, right onto Route 1,

left onto Depot Road. Follow to end.

Parking Fees: None.

5

Fort Trumbull State Park, New London

Fishing access (handicapped accessible), 24 hour pedestrian access from Riverfront Walk to Pier 4 on the Thames River.

Fish to be caught: Bluefish, striped bass, summer flounder, hickory shad, scup, tautog, winter flounder and weakfish.

Directions: I-95N, Exit 83 (Huntington Street). I-95S, Exit 84.

Parking Fees: None. Telephone: 860-444-7591.

5

Ferry Landing State Park, Old Lyme

Fishing access (handicapped accessible) consists of a fenced bulkhead area and a fishing / crabbing boardwalk. Parking is available inside the park after hours for fishing / crabbing only.

Fish to be caught: Bluefish, striped bass, summer flounder, catfish, tomcod, winter flounder, hickory shad, and white perch.

Directions: I-95, Exit 70 to Route 156. After 1/4 mile make a right onto Ferry Road. Follow to end. Telephone: 860-434-6043.

Parking Fees: None.

Hammonasset Beach State Park, Madison*

Fishing is allowed only at the Meig's Point Jetty (south end) and at West Beach Jetty during the peak season from 8am-to sunset. Night fishing is permitted along the entire beach (2 miles). The entire beach (2 miles) <u>is not open to night fishing during the off-season</u> (October - May).

Fish to be caught: Tautog, winter flounder, bluefish,

summer flounder, scup, weakfish and striped bass.

Directions: I-95, Exit 62. Telephone: 203-245-2785.

Weekend / Holiday: resident- \$10.00, non-resident- \$15.00.

Parking Fees: Weekdays: resident- \$7.00, non-resident- \$10.00

Harkness Memorial State Park, Waterford*

Fishing is allowed along the beach. No swimming allowed.

Fish to be caught: Tautog, bluefish, and striped bass can be caught off the rocky point and summer flounder off the beach.

Directions: I-95, Exit 75. Route 213 to park.

Telephone: 860-443-5725.

Parking Fees: Weekdays: resident- \$5.00, non-resident- \$7.00

Weekend / Holiday: resident- \$7.00, non-resident- \$10.00.

Rocky Neck State Park, Niantic*

Fishing is allowed on the jetty year round. The entire beach and jetty is open to fishing during the off-season. Jetty located on right side of beach.

Fish to be caught: Tautog, winter flounder, bluefish, and striped bass can be caught off the jetty. Crabbing is allowed at designated areas.

Directions: I-95, Exit 72 to Route 156. Telephone: 860-739-5471. **Parking Fees:** Weekdays: resident-\$7.00, non-resident-\$10.00

Weekend / Holiday: resident- \$10.00, non-resident- \$15.00.

Sherwood Island State Park, Westport*

Fishing is allowed at Sherwood Point, East and West Jetry during the open season (April 15-Sept. 30). The entire beach is open to fishing during the off-season from 8am to sunset only.

Fish to be caught: Tautog, bluefish, scup, summer flounder, winter flounder and striped bass can be caught off Sherwood Point.

Directions: I-95, Exit 18. Telephone: 203-226-6983.

Parking Fees: Weekdays: resident- \$7.00, non-resident- \$10.00 Weekend / Holiday: resident- \$10.00, non-resident- \$15.00.

Silver Sands State Park / Charles Island, Milford

Fishing is open throughout the area including the sand spit which extends about a mile from the mainland to Charles Island. Caution is advised when fishing or walking the tombolo. Swift tidal currents during a flood tide can make passage dangerous and persons unfamiliar with the area may be stranded on Charles Island until low tide.

Fish to be caught: Bluefish, striped bass, summer flounder, hickory shad and weakfish.

Directions: I-95, Exit 35. Take Seaside Avenue to Broadway Street.

Parking Fees: None.

For other boat launches, see 2008 CT Boaters Guide (www.ct.gov/dep/boating) and the CT Coastal Access Guide; www.lisrc.uconn.edu/coastalaccess/index.asp

Call 860.424.3034 or e-mail coastal.access@po.state.ct.us for questions or additional information.

SHORELINE FISHING AND PROPERTY RIGHTS

A Message from the Department of Environmental Protection's Office of Long Island Sound Programs

Connecticut's intertidal shore belongs to the people. Under the common law public trust doctrine, the public may freely use land and waters waterward of the mean high water line to fish. The "public trust" area includes beaches, rocky shores and open waters along tidal and navigable waters. Fishing in the "public trust" area is not trespassing; the DEP encourages anglers to enjoy their rights to use the public trust lands for fishing. However, anglers should also respect the rights of adjacent landowners by not crossing private property without permission and by leaving the shoreline clean and litter free.

Call the Office of Long Island Sound Programs for more information at 860.424.3034.

>TROPHY FISH AWARD PROGRAM

The **Trophy Fish Award Program** recognizes and rewards angling skill.

Successful anglers will receive:

- A certificate of Merit
- · A Bronze pin for your first fish of merit
- · A Silver pin for your fifth fish of merit
- A Gold pin for your tenth fish of merit or a new state record fish.

General Rules: Saltwater / Freshwater

- » Saltwater entries must be caught by boats leaving and returning to Connecticut ports. No overnite stays in another state prior to day(s) of fishing.
- » Entries must be filed on the Official Affidavit Form, pg. 51.
- » Fish must be caught by legal methods, played by only one person.
- » Fish must be entered within 30 days of capture.
- » Fish caught in hatchery ponds are not eligible.
- » Fish must be caught during Connecticut's legal open season.
- » A clear photograph of the fish must accompany the Affidavit Form.
- » Fish must be weighed on scales certified in Connecticut (tackle shops, local markets or delis) or other state certified scales.
- » <u>Please Note</u>: for all potential State Record Fish, a print out of weight from a certified scale must accompany affidavit.

Marine Qualifying Area Categories:

NEARSHORE: Inside Long Island/Fisher's Island Sound
OFFSHORE: Outside Long Island/Fisher's Island Sound
EXOTIC: Rare strays to Connecticut caught inside Long
Island/Fisher's Island Sound & Offshore waters.

FRESHWATER: Caught in Freshwater

Rules for Catch-and-Release Category:

- »All of the General Rules apply except that the fish do not need to be weighed. A witness must be present when the fish's length is measured.
- » A Clear photo must accompany the affidavit. This photo must include the angler holding the fish and a measure (yardstick, ruler, or tape measure) positioned to show length of the fish.
- »The accompanying photo must be taken at the location where the fish was caught and released.
- » Fish can not be taken from the site and then transported back.
- » Catch-and-Release fish are not eligible for State Records.
- » **BLE**=best length estimate for highly migratory species.
- » Minimum Length=Tip of snout to end of tail.
- » Marlin & swordfish measure from lower jaw to fork in tail.
- » Shark species minimum length is fork length.

In order to qualify for a Trophy Fish Award, the following minimum measurements are required:

Note: Minimum Lengths apply to the CATCH-AND-RELEASE category only! The minimum lengths listed below do not apply to the traditional weighed category.

FRESHWATER

<u>Name</u>	Minimum Weight	Minimum Length
American Eel	3 pounds	35 inches
American Shad	5 pounds	25 inches
Atlantic Salmon	15 pounds	31 inches
Bluegill	12 ounces	10 inches
Brook Trout	2 pounds	17 inches
Brown Bullhead	2 pounds	15 inches
Brown Trout	5 pounds	22 inches
Calico Bass (Black Crappie	e) 2 pounds	15 inches
Common Carp	20 pounds	34 inches
Chain Pickerel	5 pounds	27 inches
Channel Catfish	4 pounds	22 inches
Kokanee	1.75 pounds	16 inches
Largemouth Bass	6 pounds	22 inches
Northern Pike	10 pounds	35 inches
Pumpkinseed	8 ounces	9 inches
Rainbow Trout	4 pounds	21 inches
Rock Bass	12 ounces	11 inches
Smallmouth Bass	4 pounds	21 inches
Walleye	5 pounds	23 inches
White Catfish	4 pounds	20 inches
White Perch	2 pounds	15 inches
Yellow Perch	1.5 pounds	15 inches

SALTWATER

<u>Name</u>	Minimum Weight	Minimum Length
Albacore	30 pounds	40 inches
American Eel	3 pounds	35 inches
Atlantic Bonito	4 pounds	20 inches
Atlantic Cod	20 pounds	40 inches
Atlantic Mackerel	2 pounds	14 inches
Black Sea Bass	3 pounds	18 inches
Blackfish (Tautog)	8 pounds	22 inches
Blue Marlin	100 pounds	BLE (99 in.)
Blue Shark	175 pounds	BLE (54 in.)
